PART 1: MAINTAIN

MAINTAIN DEPARTMENTS

Add A Department

1. Click **Maintain** from the list of Tabs
2. Click **Departments** from the ribbon. The following dialogue box appears.

Code	Description
CIR	Circuit Court
COM	Commercial
CON	Conveyancing
DEB	Debt
FAM	Family Law
FIN	Finance
GEN	General
HIG	High Court
KH	Housing
KPL	Planning
KR	Rates
LIT	Litigation
LMU	Loans Management
OMB	Ombudsman
PC	Private Clients

3. Click the Add button to add a new department. The following dialogue box will appear.

Code	
Description	
Retired	☐

Input the following details:

A three letter department code e.g. CON for conveyancing. In the Department Code Box.

Input a Description in the Description Box.

4. Click the **OK** Button. This department is now available for use.

Amend A Department

1. Open the **Department** Dialogue Box as before.
2. Select the department you want to amend. Click the **Edit** Button. The following dialogue box appears.

A dialog box titled "Change Department" with a close button (X) in the top right corner. It contains three input fields: "Code" with the value "COM", "Description" with the value "Commercial", and "Retired" with an unchecked checkbox. At the bottom right are "OK" and "Cancel" buttons.

Make any changes required.

NOTE: The Code cannot be amended.

3. Click the **OK** Button and the changes take place.

Retire A Department

1. Open the **Department** Dialogue Box as before.
2. Select the department you want to retire. Tick the **Retired** Box then click OK.

Print A List of Departments

1. Click on the Report Tab and select System Reports
2. Click on the arrow beside Code List Reports

1. Select List of Departments. The following dialogue box will appear.

List of Departments

Enter Parameters

Show Retired Departments ☐

Run Close

2. Tick the Show Retired Departments if you need to see old departments otherwise just click on Run.

Work Types List

Code	Description
ACC	Unknown Worktype
ACT	Action
ADV	Advice
CR	Circuit Court
COM	Commercial
DIS	Dispute Collection
DLG	Def Lit Circuit Court
DLG	Def Lit District Court
DLH	Def Lit High Court
DMC	Debt Recovery
GEN	General
HIS	High Court
LEA	Lease
LOAN	Loan
OMB	Outstanding

3. The report can be exported to Word, Excel or in a PDF format.

MAINTAIN WORK TYPES

Work types are classification of work activities.

Add A Work Type

1. Click **Maintain** from the list of Tabs
2. Click **Work Types** from the ribbon. The following dialogue box appears

Code	Description	Child Care
	Unknown Worktype:	N
ACC	Accident	N
ACT	Action	N
ADV	Advice	N
CIR	Circuit Court	N
COM	Commerical	N
DEB	Debt Collection	N
DLC	Def Lit Circuit Court	N
DLD	Def Lit District Court	N
DLH	Def Lit High Court	N
DRC	Debt Recovery	N
GEN	General	N
HIG	High Court	N
LEA	Lease	N
LOAN	Loan	N

3. Click the **Add** button to add a work type. The following dialogue box appears.

Add Work Type	
Code	
Description	
Retired	☐
ChildCare	☐
OK Cancel	

Input a three letter work type code in the Code box.

Input a description in the description box.

4. Click the **OK** Button to make this work type available for use.

Amend A Work Type

1. Open the **Work Type** Dialogue Box as before.
2. Select the **Work Type** you want to amend
3. Click the **Edit** Button. The following dialogue box will appear.

The image shows a 'Change Work Type' dialog box. It has a title bar with a close button (X). Inside, there's a section titled 'Change Work Type'. Below this, there are two text input fields: 'Code' with the value 'PUR' and 'Description' with the value 'Purchase'. Below these are two checkboxes: 'Retired' and 'ChildCare', both of which are currently unchecked. At the bottom right, there are two buttons: 'OK' and 'Cancel'.

Retire A Work Type

1. Open the **Work Type** Dialogue Box as before.
2. Select the **Work Type** you no longer require and select **Edit**. Tick the **Retired** Box and click **OK**.

NOTE: If you have already assigned a work type to a case matter you will not be able to delete that work type.

Print A List of Work Types

1. Click on the Report Tab and select System Reports
2. Click on the arrow beside Code List Reports

3. Select List of Work Types. The following dialogue box will appear.

4. Tick the Show Retired Work Types if you need to see old work type otherwise just click on Run.

5. The report can be exported to Word, Excel or in a PDF format.

MAINTAIN FEE EARNER CODES

Fee Earners are the people within your firm who generate income.

Add A Fee Earner Code

1. Click **Maintain** from the Tabs
2. Click **Fee Earners** from the Ribbon and the following Dialogue Box appears.

The 'Maintain Fee Earners' dialog box features a title bar with a close button. Below the title bar are three buttons: 'Add', 'Edit', and 'Delete'. To the right of these buttons is a checkbox labeled 'Include Retired'. A search bar is positioned below the buttons. The main area contains a table with two columns: 'Code' and 'Name'. The table lists several fee earners, with 'ADM' and 'Admin' selected. A scroll bar is on the right side of the table.

Code	Name
ADM	Admin
AM	Ann Mellon
BS	Brian Sweeney
CN	Carol Nolan
JP	Justin Phelan
MK	Mark Kelly
MW	Martina Winters
SK	Stephen Keogh

3. Click the **Add** button. The following Dialogue Box appears.

The 'Add Fee Earner' dialog box has a title bar with a close button. It contains three input fields: 'Code', 'Name', and 'Retired' (a checkbox). At the bottom are 'OK' and 'Cancel' buttons.

Code	Name	Retired
		☐

Input their initials in the Code Box

Input the Name in the Name Box

4. Click the **OK** Button and this Fee Earner is available for use.

Amend A Fee Earner Code

1. Open the **Fee Earner** Dialogue Box as before.
2. Select the **Fee Earner** you want to amend

3. Click the **Edit** button. The following Dialogue Box will appear.

A dialog box titled "Change Fee Earner" with a close button (X) in the top right corner. It contains three input fields: "Code" with the value "AM", "Name" with the value "Ann Mellon", and "Retired" with an unchecked checkbox. At the bottom right are "OK" and "Cancel" buttons.

4. Make any changes required
- Click the **OK** button

Retire A Fee Earner

1. Open the **Fee Earner** Dialogue Box
2. Select the **Fee Earner** you want to retire and select **Edit**. Tick the **Retired** box. Click **OK**

NOTE: If you have already assigned a Fee Earner to a case matter you will not be able to delete that Fee Earner.

Print A List of Fee Earners

1. Click on the Report Tab and select System Reports
2. Click on the arrow beside Code List Reports

3. Select List of Fee Earners. The following dialogue box will appear

4. Tick the Show Retired Fee Earners if you need to see old fee earners otherwise just click on Run.

5. The report can be exported to Word, Excel or in a PDF format.

MAINTAIN HANDLERS

Handlers are people who carry out actions in the case diary and may record their time for billing purposes. Each Handler is a member of a team and must specify a Fee Earner Code.

Add A Handler

1. Select **Maintain** from Tabs.
2. Select **Handler** from the Ribbon and the following dialogue box appears.

	Code	Name	Team	Rate
▶	ADM	Admin	COM	150.00
	AM	Anne Mellon	CON	120.00
	BS	Brian Sweeney	COM	250.00
	CN	Carol Nolan	COM	150.00
	COM	Commercial	COM	0.00
	CON	Conveyancing	CON	0.00
	JP	Justin Phelan	CON	180.00
	LIT	Litigation	LIT	0.00
	MK	Mark Kelly	COM	150.00
	MW	Martina Winters	COM	180.00
	SK	Stephen Keogh	COM	250.00

3. Click the **Add** button, the following dialogue box appears.

4. Input the following details:
Code: Input two/three letter code e.g. HK for Helen Johnson
Name: Input the name of the handler
Retired: Leave this unchecked until the handler either retires or leaves the firm.

Team:	Click on the Down Arrow to reveal a list of teams. Select the applicable team and click the select button.
Auto Launch Timer:	If you want the time recording timer to launch automatically put a tick in this.
Outlook View:	Ensure that this is checked for the new view of case management.
Is Chargeable:	Allow for users to record time on a matter without it being charged to the matter.
Hourly Rate:	Input this handler's default hourly rate.
Logon:	Input the handler's logon name.
A/cs F/E Code:	Click the Down Arrow to reveal a list of Fee Earners. Select the appropriate fee earner.
Default Task:	Click the Down Arrow to reveal a list of tasks. Select the appropriate task.
Recent Used Matter List:	Input the amount of recently used matters, you want to appear in the recent matter list of this handler.
Exchange Alias:	Input the Handlers Email account name.
Default Delegate Resource:	Click on the Down Arrow to reveal a list of handlers. Select the default delegate handler required.
Department:	Click on the Down Arrow to reveal a list of Departments. Select the appropriate department.
Branch:	Input the branch of the organisation where the handler will work
Team Leader:	Input the name of the team leader for the team associated with this handler
Type:	Select the appropriate option button for this handler i.e. Solicitor etc.

See an example of a completed window below.

The screenshot shows a 'Change Handler' dialog box with the following fields and values:

- Code ***: BS
- Name ***: Brian Sweeney
- Hourly Rate**: 250.00
- Team ***: COM
- Logon**: BRIANS
- F/E Code ***: BS
- Default Task**: GEN
- Recent Used Matter List**: 30
- Exchange Alias**: keyhosuetest@gmail.com
- Default Delegate Resource**: Select delegate
- Department**: CON
- Branch**: Head Office
- Employee Reference No.**: (empty)
- Team Leader**: (empty)

Checkboxes and options:

- ☐ Team
- ☐ Retired
- ☐ Auto Launch Timer
- ☒ Outlook View
- ☒ Is Chargeable
- Type**:
 - ☒ Partner
 - ☐ Solicitor
 - ☐ Support Staff
- ☐ Skip welcome screen in new matter wizard

Buttons: OK, Cancel

5. Click on the **Target Hours** tab. The following window appears.

The 'Change Handler' window has five tabs: General, Target Hours, Period Start Dates, Billing Rates, and Signatures. The 'Target Hours' tab is active. It contains two columns of input fields for months 1 through 12. A 'Fill from Month 1' button is located below the input fields. The 'OK' and 'Cancel' buttons are at the bottom right.

Month	Target Hours
Month 1	0.00
Month 2	0.00
Month 3	0.00
Month 4	0.00
Month 5	0.00
Month 6	0.00
Month 7	0.00
Month 8	0.00
Month 9	0.00
Month 10	0.00
Month 11	0.00
Month 12	0.00

Fill from Month 1

Input the target hours for this time recorder for month 1. Use the **Fill from Month 1** button to fill in the remaining months with the same amount. Otherwise input individually.

6. Click on the **Period Start Dates** tab. The following window appears.

The 'Change Handler' window has five tabs: General, Target Hours, Period Start Dates, Billing Rates, and Signatures. The 'Period Start Dates' tab is active. It contains two columns of date selection fields for months 1 through 12. A 'Fill from 1' button is located below the input fields. The 'OK' and 'Cancel' buttons are at the bottom right.

Month	Period Start Date
1	Please select date
2	Please select date
3	Please select date
4	Please select date
5	Please select date
6	Please select date
7	Please select date
8	Please select date
9	Please select date
10	Please select date
11	Please select date
12	Please select date

Fill from 1

Input the first period date and click on the **Fill from 1** button to fill in the remainder of the dates.

7. Click the **Billing Rate** tab. The following window appears.

The 'Change Handler' window, 'Billing Rates' tab, contains the following fields and data:

Rate Level Per Hour	
Rate 1	0.00
Rate 2	0.00
Rate 3	0.00
Rate 4	0.00
Rate 5	0.00
Axle Number	0

Charge Group: Select Charge Group

Charge Group dropdown menu (right screenshot):

Code	Charge Group
PTR	Partner
SAS	Senior Associate
JAS	Junior Associate
TNE	Trainee

Input the rate levels per hour. Rate 1 is the lowest rate, Rate 5 the highest.

Set the Charge Group Rates (See Maintain Handler Charge Groups p. 22 for information on setting up Handler Charge Groups). Axle Number is not required.

8. Click on the **Signature** tab. The following window appears.

The 'Change Handler' window, 'Signature' tab, contains the following fields and data:

Signature: Kind regards
Brian Sweeney

Phone number: 01-290 2222

E-Mail: keyhousetest@gmail.com

Trading name: Soo Grabbit & Runne

Input a signature in the signature box.

Input a phone number in the phone number box.

Input an email address in the email box.

Input a trading name in the trading name box.

9. Click on the **Budgets** tab.

The screenshot shows the 'Change Handler' dialog box with the 'Budgets' tab selected. The dialog has a title bar with a close button. Below the title bar are tabs: General, Target Hours, Period Start Dates, Billing Rates, Signature, and Budgets. The Budgets tab contains a table with columns: Year, Month, Fees, Chargeable Time, and Non-Chargeable Time. The table is currently empty. At the bottom of the dialog are buttons: Fill Budget, Copy Budget, Add, Edit, Delete, OK, and Cancel.

10. Click the Add button and the following dialogue box will appear and the Handler's monthly budgets can be entered.

NOTE: This will enter the same values for each month

The screenshot shows the 'Add Budget' dialog box. It has a title bar with a close button. The dialog contains the following fields: Handler (with value 'BS'), Year, Month, Fees Budget, Chargeable Time Budget, and Non-Chargeable Time. At the bottom are buttons: OK and Cancel.

The screenshot shows the 'Change Handler' dialog box with the 'Budgets' tab selected. The table is populated with data for the year 2016, months 1 through 12. The values are: Fees: 8,500.00, Chargeable Time: 210.00, Non-Chargeable Time: 30.00. The table is currently empty.

Year	Month	Fees	Chargeable Time	Non-Chargeable Time
2016	1	8,500.00	210.00	30.00
2016	2	8,500.00	210.00	30.00
2016	3	8,500.00	210.00	30.00
2016	4	8,500.00	210.00	30.00
2016	5	8,500.00	210.00	30.00
2016	6	8,500.00	210.00	30.00
2016	7	8,500.00	210.00	30.00
2016	8	8,500.00	210.00	30.00
2016	9	8,500.00	210.00	30.00
2016	10	8,500.00	210.00	30.00
2016	11	8,500.00	210.00	30.00
2016	12	8,500.00	210.00	30.00

11. When complete click the **OK** Button and click **OK** again.
12. Use the Add button to add a unique value for each month.
13. Use Edit to change the values by exceptions.

14. Copy Budget will copy all the budget from a previous year into the current year.
15. Click on Copy Budget

Year	Month 01	Fees Budget 01	Chargeable Time Budg...
2015	1	8250.00	210.00
2014	1	7900.00	210.00
2013	1	7500.00	210.00
2012	1	6000.00	200.00
2011	1	35000.00	120.00
2010	1	30000.00	122.00
2009	1	17000.00	120.00
2008	1	16000.00	120.00

16. Select the year to be copied and click Select
17. This will copy the budget information for each month

Year	Month	Fees	Chargable Time	Non-Chargable Ti...
2016	1	8,250.00	210.00	30.00
2016	2	8,250.00	210.00	30.00
2016	3	8,250.00	210.00	30.00
2016	4	8,250.00	210.00	30.00
2016	5	8,250.00	210.00	30.00
2016	6	8,250.00	210.00	30.00
2016	7	8,250.00	210.00	30.00
2016	8	8,250.00	210.00	30.00
2016	9	8,250.00	210.00	30.00
2016	10	8,250.00	210.00	30.00
2016	11	8,250.00	210.00	30.00
2016	12	8,250.00	210.00	30.00

18. Values can then be edited by exception
19. Click OK when finished to save the changes
20. This time recorder is now available for use.

Amend A Handler

1. Open the **Handler** Dialogue Box as before.
2. Select the Handler you want to amend.
3. Click the **Edit** button. The following dialogue box will appear.

The screenshot shows the 'Change Handler' dialog box with the 'General' tab selected. The fields are as follows:

- Code: BS
- Name: Brian Sweeney
- Hourly Rate: 250.00
- Team: COM
- Logon: BRIANS
- F/E Code: BS
- Default Task: GEN
- Recent Used Matter List: 30
- Exchange Alias: keyhosuetest@gmail.cc
- Default Delegate Resource: (empty)
- Department: CON
- Branch: Head Office
- Employee Reference No.: (empty)

Checkboxes and options include:

- ☐ Team
- ☐ Retired
- ☐ Auto Launch Timer
- ☒ Outlook View
- ☐ Auto Launch KPI
 - ☐ Send By E-mail
 - ☐ Send Startup
 - ☒ Send and Show
- ☐ Skip welcome screen in new matter wizard
- Type:
 - ☒ Partner
 - ☐ Solicitor
 - ☐ Support Staff

Buttons: OK, Cancel

4. Make any changes required and click the **OK** button.

Retire A Team

1. Open the **Handler** dialogue box
2. Select the Handler you want to retire and select **Edit**. Tick the **Retired** box and click OK.

Delete A Team

1. Open the **Handler** dialogue box
2. Select the **Handler** you want to delete.
3. Click the **Delete** button.

NOTE: If a Handler is already in use you will not be able to delete it.

Print A List of Handlers

1. Click on the Report Tab and select System Reports
2. Click on the arrow beside Code List Reports

3. Select List of Handlers. The following dialogue box will appear

4. Tick the Show Retired Handlers if you need to see old handlers otherwise just click on Run.

5. The report can be exported to Word, Excel or in a PDF format.

MAINTAIN TEAMS

Teams can be based on groups of Handlers e.g. groups of Fee Earners and/or Support Staff. It is also possible to set default billing rates for the team.

Add A Team

1. Click **Maintain** from the Tabs. Click on **Handlers** and the following dialogue box will appear.

	Code	Name	Team	Rate
▶	ADM	Admin	COM	150.00
	AM	Anne Mellon	CON	120.00
	BS	Brian Sweeney	COM	250.00
	CN	Carol Nolan	COM	150.00
	COM	Commercial	COM	0.00
	CON	Conveyancing	CON	0.00
	JP	Justin Phelan	CON	180.00
	LIT	Litigation	LIT	0.00
	MK	Mark Kelly	COM	150.00
	MW	Martina Winters	COM	180.00
	SK	Stephen Keogh	COM	250.00

2. Click on the **Add** button, the following dialogue box appears.

Input the following details.

- Code:** Input a three letter code for the team
- Team:** Check the team box. The following screen will appear

- Name Box:** Input the team name
- Hourly Rate:** Input a default hourly rate
- Is Chargeable:** Tick the box if rate is chargeable
- Department:** Input a department for the team
- Branch:** Input a brand for the team (if relevant)
- Team Leader:** Input a team leader for the team

3. Click the **OK** button and this Team is available for use.

Amend A Team

1. Open the **Handler** Dialogue Box as before.
2. Select the **Team** you want to amend. Click the **Edit** button. Make any changes required.
3. Click the **OK** button.

Retire A Team

1. Open the **Handler** dialogue box
2. Select the Team you want to retire and select **Edit**. Tick the **Retired** box and click OK.

Delete A Team

1. **Open** the **Handler** dialogue box
2. Select the **Team** you want to delete.
3. Click the **Delete** button.

NOTE: If you have already assigned a Team to a case matter you will not be able to delete that Team.

Print A List of Teams

1. Click on the Report Tab and select System Reports
2. Click on the arrow beside Code List Reports

3. Select List of Teams. The following dialogue box will appear.

4. The Show Fee Earners is automatically ticked and will list the fee earners in each team.
5. Tick the Show Retired Teams if you need to see old teams otherwise just click on Run.

6. The report can be exported to Word, Excel or in a PDF format.

OTHER CODES

Other codes allows the user to maintain fields in Keyhouse. It facilitates the tailoring of Keyhouse to meet the needs of each company.

	File Colour Allow matters to be coded by colour e.g. Litigation – Red or Conveyancing - Green		Salutation Codes Use in Debt Recovery for Revenue Commissioners. Allow letters to be coded with specific salutations
	Marital Status Enables a client's/Contact's/ Associate's marital status to be added to the client details e.g. single, divorced, using a drop down list		Location Allows for the addition of storage locations for the Strong Room
	Nationality Enables a client's nationality to be added to the Client Details using a drop down list		Item Code Allows for the creation of items for the Strong Room e.g. Wills or Deeds
	PPS Tax Types Allow for the creation of a list of different tax types for use on the Current Client Details Screen		Category Type Allow for the creation of customer category types. These codes are visible on the Current Client Details Screen and the Know Your Client Screen
	Tasks Allows for the creation of Tasks to be used in relation to Time Recording. It also allow Charge Levels to be set.		Flag Description Allows for a description to be added to flags.
	Admin Codes Allows for the creation of Administration Codes used in relation to Time Recording		Popup Paragraphs PopUp paragraphs can be used where the precedent content may differ depending on the Matter details, e.g. special conditions.
	Standard Narratives Used in relation to Time Costing. It enables the user to add more information in the Comments section of the Time Slip.		Document Class Allow for documents to be grouped based on the type of document e.g. Client Correspondence, Pleadings etc.
	Billing Narratives Allow for the creation of narratives in relation to invoicing e.g. Professional Fees, Search Fees etc.		Occupation Creates a dropdown list of occupation types that can be used on the Current Client Details Screen.
	Undertaking Status Allow for the classification of undertakings based on the undertaking status		Contact Type Allows for the profiling of Contacts e.g. Business, Lead, Private.
	Tax Head Use in Debt Recovery for Revenue Commissioners. Allows for the creation of Tax Types e.g. PAYE, Capital Gains Tax		Charge Arrangements Allow for the creation of different charging arrangements in relation to outstanding debts. This can be on a commission or flat fee basis

	Handler Charge Groups Groups can be set up for different categories of fee earners e.g. Partner, Associates to allow rates to be set a group level.		Status Codes Status codes can be set up indicate the current position of a matter. The Status Codes are added to actions in workflows
	Charge Types Used in Debt Recovery for Revenue Commissioners. This relates to the nature of the tax debt e.g. Interest, penalties or surcharges. Tax Head must be set up in advance of the Charge Type.		UDF Categories Setting up UDF categories will allow for the grouping of UDF fields together
	SDLT Form Parameters Stamp Duty Land Tax – For UK Clients Only.		Undertaking Category Used to classify undertakings based on the reason they were given e.g. Redemption of Mortgage, Registration of Deeds etc.
	Know Your Client Relates to the type of due diligence carried out in relation to Anti Money Laundering. Pre populated with Law Society Guidelines		Client Type Used in relation to Anti Money Laundering to record the type of client e.g. a charity, partnership or private individual. Pre Populated with Law Society Guidelines
	Introduction By Used in relation to Anti Money Laundering to record how client was introduced to the company. Pre populated with Law Society Guidelines		ID Proofs Used in relation to Anti Money Laundering to record the type of documentation received as proof for AML. Pre populated with Law Society Guidelines
	Outlay Codes Used for Cheque Requisitions to group outlay based on type.		KPI Parameters Maintained Monthly. Used to roll forward the accounting month to enable Dashboard reports to be run correctly.

MAINTAIN SIMPLE CODES

Simple codes only require basic information e.g. Code, description. The following use simple codes only:

Salutation	Location	Marital Code	Nationality
Item Types	PPS Tax Types	Category Types	Flags
Admin Codes	Standard Narrative	Document Class	Billing Narrative
Occupation	Undertaking Status	Contact Type	Tax Head
Client Group	Branch	Handler Charge Group	Status Codes
UDF Category	Undertaking Category	Know Your Client	Client Type
Introduced By	ID Proof	Outlay Code	

Add A Simple Code

1. Click on **Maintain** from the Tabs.
2. Select **Other Codes** from the Ribbon and then select the required Code.

The screenshot shows a window titled "Maintain Marital Status" with a close button (X) in the top right corner. Below the title bar are three buttons: "Add", "Edit", and "Delete". Underneath these buttons is a search bar labeled "Search". Below the search bar is a table with two columns: "Code" and "Description". The table contains the following rows:

Code	Description
DIV	Divorced
MAR	Married
SEP	Separated
SGL	Single
WID	Widowed

3. Click the **Add** button. A dialogue box appears.

The screenshot shows a dialog box titled "Add Marital Status" with a close button (X) in the top right corner. Inside the dialog box, there are two input fields: "Code" and "Description". Below these fields are two buttons: "OK" and "Cancel".

Input a three-letter Code in the Code box e.g. CVL for Civil Partnership
Input the Description in the Description box.

4. Click the **OK** button and this status code is available for use.

Amend A Simple Code

1. Open the **Code Type** box as before.
2. Select the **code** you want to amend.
3. Click the **Edit** button. The following dialogue box will appear.

Change Marital Status

Code CVL

Description Civil Partnership

Retired ☐

OK Cancel

Make any changes required.

4. Click the **OK** button.

Delete/Retire A Simple Code

It is not possible to delete some codes however they can be retired.

1. Open the **Code Type** box as before.
2. Select the **code** you want to amend.
3. Click the **Edit** button.
4. Tick the Retired box to retire the code
5. Click OK
6. If the code can be deleted, highlight the code and click Delete.

MAINTAIN FILE COLOURS

File Colours can be used to colour code file types e.g. all conveyancing files would be blue, all litigation red etc.

Add A File Colour

1. Click **Maintain** from the Tab list.
2. Select **Other Codes** from the Ribbon and then select **File Colour**.

3. Click the **Add** button to add a file colour. The following dialogue box appears.

- Input a three letter code in the Colour Code box e.g. BLU for Blue
Input a Colour Description in the Colour Description box.
Select the colour to be added to the field
4. Click the OK button and this file colour is available for use.

Amend A File Colour

1. Open the File Colour dialogue box as before.
2. Select the File Colour you want to amend.
3. Click the Edit button and the following dialogue box will appear.

4. Make the necessary changes and then **select** the **colour** again.
5. Click on **OK** button.

Delete/Retire A File Colour

It is not possible to delete a file colour at this time however it can be retired.

1. Open the **Code Type** box as before.
2. Select the **code** you want to amend.
3. Click the **Edit** button.
4. Tick the Retired box to retire the code
5. Click OK

MAINTAIN POPUP PARAGRAPH CODES

A PopUp paragraph can be used where the precedent may differ on language depending on the Matter details, e.g. special conditions. If you code for a PopUp paragraph you are giving the user the option to select the exact type of paragraph they require. It is possible to set up the PopUp paragraphs so the user can select one or multiple paragraphs in the letter\document.

Add A PopUp Paragraph Code

1. Click on **Maintain** from the Tabs.
2. Select **Other Codes** from the Ribbon and then select **PopUp Paragraph**.

Key Field	Category	Text Value
208	AccidentCircs	The Claimant slipped on a wet floor
209	AccidentCircs	The Claimant suffered injury when an unsecured object fell on...
210	AccidentCircs	The Claimant tripped over a protruding object
108	AGRI	A first legal mortgage and charge on the [UDF:SzAcre] acre holding comprised in [CSM:CsPremises].
109	AGRI	A first legal mortgage and charge on the dwelling house located at [CSM:CsPremises].
110	AGRI	An Equitable Deposit over the lands comprised in [CSM:CsPremises].
111	AGRI	An Assignment of a Mortgage Protection on the life of [CNT:Name] for the amount and term of the loan.
112	AGRI	A charge over £[UDF:ChAmt] shares in [UDF:Shares].

3. Click the **Add** button to add a PopUp Code. The following dialogue box appears.

The system will generate a **Key Field** automatically

Input a Category in the Category box e.g. Financial

Type the required text in the Paragraph text box.

4. Click the **OK** button and this paragraph text is available for use.

Multiple Paragraph Option

1. Open the **Add Document Paragraph** dialogue box as before.
2. Add the **category** and type the **description**

3. Enter the code **[SYS:dpopup('xxx')]**.

4. Click the **OK** button and the PopUp paragraph is now available for use.

Amend A PopUp Paragraph Code

1. Open the **PopUp Paragraph** box as before.
2. Select the **PopUp Paragraph code** you want to amend.
3. Click the **Edit** button. The following dialogue box will appear.

Make any changes required.

4. Click the **OK** button.

Delete A PopUp Paragraph Code

PopUp Paragraphs cannot be deleted at this time.

MAINTAIN TASKS

Tasks are general activities performed by handlers e.g. letter writing, file review etc.

Add A Task

1. Click **Maintain** from the Tabs.
2. Click **Other Codes** and then select **Tasks**. The following dialogue box appears.

Code	Description	Default
ADV	Advice	0
ATT	Attendance	0
CLO	Close File	0
COU	Court Attendance	0
DEM	Demand & Draft Proceedings	40
DIC	Dictation	0
DRA	Document Drafting	0
EMA	Email	0
GEN	General Advice	0
INS	Instructions received	0
LET	Letter Drafting	200
MEET	Client Meeting	15
PC	Photocopying	25
PHO	Phone Call	0
PSX	Postage & Sundries	20

3. Click the **Add** button to add a Task. The following dialogue box appears.

Input a three/four letter code in the Code Box e.g. Ltr for Letter.

Input the Description in the Description box

Axle Task should not be ticked.

Set the Default Rate if the rate should be the same for all handlers.

If the Task is to be billed at a level other than the normal charge rate for the handler, set a Charge Level.

Use the Drop down to select a specific department if required.

4. Click the **OK** button and this Task is available for use.

Amend A Task

1. Open the **Task** dialogue box as before.
2. Select the **Task** you want to amend.
3. Click the **Edit** button. The following dialogue box will appear.

The screenshot shows a 'Change Tasks' dialog box. It contains the following fields and controls:

- Code:** Text box containing 'LET'.
- Description:** Text box containing 'Letter Drafting'.
- Axle Task:** Checkbox, currently unchecked.
- Default:** Text box containing '0.00'.
- Charge Level:** A group box containing five radio buttons: 33%, 67%, 100% (selected), 133%, and 167%.
- Department:** A dropdown menu.
- Retired:** Checkbox, currently unchecked.
- Buttons:** 'OK' and 'Cancel' buttons at the bottom right.

Make any changes required.

4. Click the **OK** button.

Retire A Task

1. Open the **Task** dialogue box as before.
2. **Select** the Task you want to retire and click on the **Edit** button.
3. Tick the **Retired** box and click **OK**.

NOTE: When you retire a task it will not affect any uncompleted items. However, it will stop it being selected again

MAINTAIN TAX HEAD

Tax Heads detail all the different types of taxes payable by a company or an individual.

Create A Tax Head

1. Click **Maintain** from the Tabs.
2. Click **Other Codes** and then select **Tax Head**. The following dialogue box appears.

Tax Head	Description
CG	Capital Gains Tax
CT	Corporation Tax
IT	Income Tax
LP	Local Property Tax

3. Click the **Add** button to add a Task. The following dialogue box appears.

Add Tax Head	
Tax Head	
Description	

Input a two-letter Code in the Code box e.g. VT for VAT

Input the Description in the Description box.

5. Click the **OK** button and this Tax Head is available for use.

Amend A Tax Head

1. Open the **Tax Head** dialogue box as before.
2. Select the **Tax Head** you want to amend.

3. Click the **Edit** button and the following dialogue box will appear.

The image shows a software dialog box titled "Change Tax Head". It has a standard Windows-style title bar with a close button (X) in the top right corner. Inside the dialog, there are two text input fields. The first field is labeled "Tax Head" and contains the text "LP". The second field is labeled "Description" and contains the text "Local Property Tax". At the bottom right of the dialog, there are two buttons: "OK" and "Cancel".

4. Make the necessary changes.
5. Click on **OK** button.

Delete A Tax Head

It is not possible to delete a Tax Head at this time.

MAINTAIN A CHARGE TYPE

Charge Types allow you to break down how the value of the debt was reached e.g. penalties and surcharges, assessment etc.

Create A Charge Type

1. Click **Maintain** from the Tabs.
2. Click **Other Codes** and then select **Charge Type**. The following dialogue box appears.

Charge Type	Description
01	P35 Filed
02	P35 Inspector

3. Click the **Add** button to add a Charge Type. The following dialogue box appears.

Add Charge Type

Tax Head

Charge Type

Description

OK Cancel

Input a two-letter Code in the Code box e.g. IL for Interest on Late Payment
Input the Description in the Description box.

6. Click the **OK** button and this Charge Type is available for use.

Amend A Charge Type

1. Open the **Charge Type** dialogue box as before.
2. Select the **Charge Type** you want to amend.

3. Click the **Edit** button and the following dialogue box will appear.

The screenshot shows a 'Change Charge Type' dialog box. It has a title bar with a close button (X). The main area contains three fields: 'Tax Head' with a dropdown menu showing 'PA', 'Charge Type' with a text box containing '02', and 'Description' with a text box containing 'P35 Inspector'. At the bottom right are 'OK' and 'Cancel' buttons.

4. Make the necessary changes.
5. Click on **OK** button.

Delete A Charge Type

It is not possible to delete a Tax Head at this time.

MAINTAIN CHARGE ARRANGEMENTS

Create Charge Arrangements

1. Click **Maintain** from the Tabs.
2. Click **Other Codes** and then select **Charge Arrangements**. The following dialogue box appears.

Code	Description	Time Charge	Action	Band 1 Limit	Band 1 Rate	Band 2 Limit	Band 2
DEB	Debt Costs	C		2000.00	2.00	999999999...	4.00
PSD	Postage & Sundries on Draft Pr...	C		0.00	0.00	0.00	0.00

3. Click the **Add** button to add a Charge Type. The following dialogue box appears.

Code:

Description:

On completion of action: Change charging method to: ☒ Time ☐ Charge task

Commission Charges

Band Limit 1		Band Rate 1	
Band Limit 2		Band Rate 2	
Band Limit 3		Band Rate 3	
Band Limit 4		Band Rate 4	
Band Limit 5		Band Rate 5	

Ok Cancel

Input a two-letter Code in the Code box e.g. DEB for Debt

Input the Description in the Description box.

Input the next Action if required

Ensure Time is ticked if billing is based on the time spent on the matter. Ensure Charge task is ticked if billing is based on the action carried out. The Change Matrix will have to be created.

If payment is on a commission basis, based on the values of the debt enter the commission rates to be charged e.g. Band Limit €2,000 with a Band Rate of 4%

Click on **Change Matrix** if required.

Charge Code	Description	Arrangement	Band 1 Limit	Band 1 Rate	Band 2 Limit	Band 2 Rate
D01	Initial Deamand	DEB	99999999...	30.00	0.00	0.00
D02	District Court Issue Fee	DEB	99999999...	120.00	0.00	0.00
D03	Circuit Court Issue Fee	DEB	99999999...	120.00	0.00	0.00
D04	High Court Issue Fee	DEB	99999999...	120.00	0.00	0.00

Click the Add

Input a three character Charge Code
 Input the Description in the Description box.
 Input a Stage Code if required
 Input the Band Limits and a Band Rates as required

- Click the **OK** button and this Change Matrix is available for use.

Amend A Charge Type

- Open the **Charge Arrangement** dialogue box as before.
- Select the **Charge Arrangement** you want to amend.

3. Click the **Edit** button and the following dialogue box will appear.

The screenshot shows a dialog box titled "Change Charge Arrangement" with a close button (X) in the top right corner. It has two tabs: "General" and "Charge Matrix", with "Charge Matrix" being the active tab. The "General" tab contains fields for "Code" (DEB) and "Description" (Debt Costs). Below these is a dropdown menu for "On completion of action" set to "Select action". To the right is a section "Change charging method to" with two radio buttons: "Time" (unselected) and "Charge task" (selected). The "Charge Matrix" tab contains a section titled "Commission Charges" which is a table with two columns: "Band Limit" and "Band Rate". There are five rows of data. At the bottom right of the dialog are "Ok" and "Cancel" buttons.

Band Limit	Band Rate
2,000.00	2.00%
9,999,999,999.00	4.00%
0.00	0.00%
0.00	0.00%
0.00	0.00%

4. Make the necessary changes.
5. Click to the Change Matrix Tab if a change is required here
6. Click on **OK** button.

Delete A Charge Arrangement

It is not possible to delete a Tax Head at this time.

MAINTAIN KPI PARAMETERS

KPI Parameters should be maintained on a monthly basis. This information is used in relation to the Dashboard report on the Time Costing Screen.

Maintain KPI Parameters

1. Click **Maintain** from the Tabs.
2. Click **Other Codes** and then select **KPI Parameters**. The following dialogue box appears.

Start Of Year	From Date	To Date	Period	Year
01 Jan 2016	01 May 2016	31 May 2016	5	2016

3. Right click on the current entry and select Edit. The following dialogue box appears.

Start Of Year	01 Jan 2016
From Date	01 May 2016
To Date	31 May 2016
Period	5
Year	2016

OK Cancel

4. Change the required information
5. Click OK and this information will be visible in the Dashboard Report.

MAINTAIN CONTACT CATEGORIES

It is possible to categorise your client and create different types of mailing lists. You may want to create a mailing list of clients to receive information on changes in the Tax Code or a list of clients to receive a News Letter. It is also possible to add User Defined Fields to the Contact Category.

Create A Contact Category

1. Go to the Setup Tab and open the Document Assist (p. 83) Window (see Guide to The Document Assist) if required.
2. Click **Maintain** from the Tabs.
3. Select Contact Categories from the Ribbon and the following dialog box will appear.

The 'Maintain Contact Category' dialog box features a title bar with a close button. Below the title bar are three buttons: 'Add', 'Edit', and 'Delete'. A search bar is located below these buttons. The main area contains a table with the following data:

Type	Category Description	Code	Description
BUS	Business Source	AD	Advertising
Mail	Mailing List	BUD	Budget Update List
Mail	Mailing List	COR	Corporate
BUSTYP	Business Type	FIN	Financial Services
BUSTYP	Business Type	INS	Insurance
BUS	Business Source	NEWS	News Letter
BUSTYP	Business Type	PRI	Private Client
Mail	Mailing List	PRIM	Private Clients List
BUS	Business Source	REFER...	Referral
BUS	Business Source	WEB	Web Site
Mail	Mailing List	XMAS...	XMAS Cards

4. Click Add button to add a new Contact Category and the following dialog box will appear.

The 'Add Contact Category' dialog box has a title bar with a close button. It contains a 'Category type' dropdown menu with the text 'Please select a category type' and an 'Add category type' button. Below these are input fields for 'Code' and 'Description'. A section titled 'User defined fields' contains ten input fields labeled UDF1 through UDF10. At the bottom right are 'Ok' and 'Cancel' buttons.

5. Select the Category Type or select Add category type to add a new category as detailed above.
6. Enter a Code and Description.

7. Using the Document Assist enter the UDF fields (p. 84) required. (See Creating User Defined Fields).

Change Contact Category

Category type: Mail (dropdown) Add category type

Code: NWS

Description: News

User defined fields

UDF1: [CNT:Name]

UDF2: [CNT:Address]

UDF3:

UDF4:

UDF5:

UDF6:

UDF7:

UDF8:

UDF9:

UDF10:

Ok Cancel

8. Click OK when finished.

Delete A Contact Category

It is not possible to delete a category type at this time.

PART 2: MAINTAIN USER SECURITY

USER ACCESS

User access levels can be restricted and controlled. This allows for greater system security.

Create New User

A new user can be set up from the User Setup Screen

1. Go to the Setup Tab and select User Setup

The screenshot shows the 'Maintain User Security' window with a ribbon at the top containing 'New User', 'Import Users', 'Record Security', 'Handler Control Access', and 'Profile Control Access'. A search bar is present above a table of users.

Code	Name	Team	Active	Supervisor	Team Code	Retir
ADM	Admin	Commercial	Yes	Yes	COM	N
AM	Anne Mellon	Conveyancing	No	No	CON	N
BS	Brian Sweeney	Commercial	Yes	Yes	COM	N
CN	Carol Nolan	Commercial	Yes	Yes	COM	N
JP	Justin Phelan	Conveyancing	No	No	CON	N
MK	Mark Kelly	Commercial	No	No	COM	N
MW	Martina Winters	Commercial	No	No	COM	N
SK	Stephen Keogh	Commercial	No	No	COM	N

2. Select New User.
3. Enter the required information. The Handler code is usually their initials.

The 'New User' dialog box contains the following fields and options:

- User name: Jack Flynn
- Handler Code: JF (This is also going to be their first password)
- Rate: (empty field)
- Team: (dropdown menu)
- Type of user: ☐ Partner, ☐ Solicitor, ☒ Support Staff, ☐ Other
- E-mail address: jack@keyhouse.ie
- Buttons: OK, Cancel

4. Click OK.
5. As only limited information can be added at this point it may be necessary to use the Handler Option on the Maintain Ribbon to add the remaining details.

The screenshot shows the 'Maintain User Security' window with a ribbon at the top containing 'New User', 'Import Users', 'Record Security', 'Handler Control Access', and 'Profile Control Access'. A search bar is present above a table of users. A 'Standard View' button is visible in the top right corner.

Code	Name	Team	Active	Supervisor	TeamCode	Retired
ADM	Admin	Commercial	Yes	Yes	COM	N
AM	Anne Mellon	Conveyancing	Yes	No	CON	N
BS	Brian Sweeney	Commercial	Yes	No	COM	N
CN	Carol Nolan	Commercial	Yes	Yes	COM	N
JP	Justin Phelan	Conveyancing	No	No	CON	N
MK	Mark Kelly	Commercial	Yes	No	COM	N
MW	Martina Winters	Debt Recovery	Yes	No	DBT	N
SK	Stephen Keogh	Commercial	No	No	COM	N

NOTE: To ensure you only see active handlers on this screen filter the screen and create your own view.

Import User

When a user has been set up using the Handler Option on Maintain Tab, it will not be visible in the list of users in the User Setup. Use the Import User option to add the name to the list.

1. Go to the Setup Tab and select User Setup.
2. Click on Import User and the User Name will appear in the list of Users.

Activate Handler

When a User has been set up using the Handler Option on the Maintain Tab, they need to be given access to the system and their password needs to be set. If a user is set up using the New User Option then they are automatically activated.

1. Go to the Setup Tab and select User Setup

Code	Name	Team	Active	Supervisor	TeamCode	Retired
ADM	Admin	Commercial	Yes	Yes	COM	N
AS	Anna Sullivan	Commercial	Yes	No	COM	N
BS	Brian Sweeney	Commercial	Yes	No	COM	N
CN	Carol Nolan	Commercial	Yes	Yes	COM	N
JP	Justin Phelan	Comvincing	No	No	COM	Y
MK	Mark Kelly	Commercial	Yes	No	COM	N
MW	Martina Winters	Debt Recovery	Yes	No	DBT	N
SK	Stephen Keogh	Commercial	No	No	COM	N

2. Right click on the User to be change.

Code	Name	Team	Active	Supervisor	TeamCode	Retired
ADM	Admin	Commercial	Yes	Yes	COM	N
AS	Anna Sullivan	Commercial	Yes	No	COM	N
BS	Brian Sweeney	Commercial	Yes	No	COM	N
CN	Carol Nolan	Commercial	Yes	Yes	COM	N
JP	Justin Phelan	Comvincing	No	No	COM	Y
MK	Mark Kelly	Commercial	Yes	No	COM	N
MW	Martina Winters	Debt Recovery	Yes	No	DBT	N
SK	Stephen	Commercial	No	No	COM	N

3. Click Deactivate this Handler and it will change to Activate this Handler
4. In the Change Password Box enter the User's password (usually their initials) and click Change.
5. Click Make this Handler a Supervisor if the user is to have Administration rights.

Deactivate this handler

Reset the Password for this Handler

Change

☐ Make this handler a Supervisor

☐ Set Handler's Group privileges

☐ Set Report Module Privileges

- Click on the X in the top right of the Dialog Box to close the screen.

NOTE: The user will need to log on using the Login using your Handler Code and password option and then complete the log in procedure. This will only need to be done the first time the User logs in.

The image shows a login dialog box for Keyhouse. It features the Keyhouse logo at the top, which consists of a purple circle containing a white building icon, followed by the word "Keyhouse" in a large, bold, blue font. Below the logo, the text "Please login to Keyhouse" is displayed. There are two input fields: "Handler:" with the text "an" and "Password:" with two asterisks "**". Below these fields is a checkbox labeled "Link this login to your Windows Login" which is checked. At the bottom is a "Login" button.

Security Groups

Security Groups give the ability to limit access to Clients and Matters. This will help ensure confidentiality.

Set Up New Group

- Go to the Setup Tab and select User Setup.
- Select Record Security

Group ID	Group Name	In Use	Applied To Matter	Applied To Handl...
1	Family Law	True	True	False
2	Conveyancing	True	True	False
3	Litigation	True	True	False
4	Criminal	True	False	False
5		True	False	False
6		False	False	False
7		False	False	False
8		False	False	False
9		False	False	False
10		False	False	False
11		False	False	False
12		False	False	False
13		False	False	False
14		False	False	False
15		False	False	False
16		False	False	False
17		False	False	False
18		False	False	False
19		False	False	False

3. Select the next line and enter the name of the Group

Group ID	Group Name	In Use	Applied To Matter	Applied To Handl...
1	Family Law	True	True	False
2	Conveyancing	True	True	False
3	Litigation	True	True	False
4	Criminal	True	False	False
5	Private Clients	True	False	False
6		False	False	False
7		False	False	False
8		False	False	False
9		False	False	False
10		False	False	False
11		False	False	False
12		False	False	False
13		False	False	False
14		False	False	False
15		False	False	False
16		False	False	False
17		False	False	False
18		False	False	False
19		False	False	False

4. Continue entering the groups and then close the screen.
5. Users will then need be assigned to the groups.

Add a User to a Group

Once the groups have been defined and added to the system, users can then be added to specific or all groups.

1. Go to the Setup Tab and select User Setup.
2. Right click on the required User and click Set Handler's Group privileges

Code	Name	Team	Active	Supervisor	TeamCode	Retired	Family Law	Conveyancing	Litigation	Criminal	Private Clients
ADM	Admin	Commercial	Yes	Yes	COM	N	Yes	Yes	Yes	Yes	Yes
AM	Anne Mellon	Conveyancing	Yes	No	CON	N	No	Yes	No	No	No
BS				No	COM	N	No	No	No	No	No
CN				Yes	COM	N	Yes	Yes	Yes	Yes	Yes
JP				No	CON	Y	No	No	No	No	No
MK				No	COM	N	No	No	No	No	No
MW				No	DRT	N	Yes	Yes	Yes	No	No
SK							Yes	Yes	Yes	No	No

3. Ticks the boxes to give access to the specific groups
4. Repeat the process for each user.
5. Close the Dialog Box once finished.

NOTE: Supervisor Access automatically gives full access to all Security Groups.

Handler Control Access

Users, by default, have access to the full Keyhouse system. Different people will require different levels of access e.g. a Fee Earner may need access to System Reports while a member of the Support Staff would not. It is possible to add and remove permission for individual Users.

1. Go to the Setup Tab and select User Setup.
2. Click on Handler Control Access.

Keyhouse Control Access Maintenance															
Handler	OR All Handlers	Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Change Client Charge Out Rates	Change Day Book Handler	Change Matter Security Permissions	Discharge Undertaking	Document Asses

Stephen Keogh	☐		☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒

3. The **Or All Handlers** box is ticked for All Handlers to populate the information across all columns. This must remain ticked.
4. To remove access for a User, delete the tick in the appropriate column.

The Column Headings are:

Access Firm Phone Log:

Controls access to the Phone Log.

Access to Know Your Client:

Controls access to the Know Your Client Section on the Client/Case Screen

Account User:

Controls who can Draft an Invoice, Request a Cheque, see the Accounts Ledger on a matter and view My Invoices and My Cheques on the Search/Open Screen

Access Flow Setup:

Controls who can access to the Case Workflow Setup on the Setup Tab

Add Associate Types:

Controls who can create a new Associate Type

AML Approval:

Controls who can say that AML has been carried out (Tick the AML option on the Current Client Details General Tab or on the Critical Information Screen)

Bank Details:

Controls who can add or edit Bank Details for an Associate.

Can maintain Time Entries belonging to others:

Controls who edit entries on the Time Ledger for other people.

Change Client Charge Out Rates:

Controls who can add or edit Charge Out fees at both the Client and Matter level on the Billing Screens.

Change Day Book Handler:

Controls who can amend time recorded by others on the Time Costing Screen before it is posted.

Change Matter Security Permissions:

Controls who can change the Matter Security Permission e.g. change a matter from one security group to another.

Discharge Undertakings:

Controls who has access to Discharge an Undertaking on the system.

Document Assist:

Controls who has access to the coding structure for Precedent Documents

Maintain Client & Case Matter:

Controls who can amend Client and Matter details after they have been set up.

Maintain Undertakings:

Controls who can add, change and delete undertakings.

New Client:

Controls who can set up new Clients on the system.

Precedents:

Controls who can access the Precedents Documents using an Action.

Setup New Case:

Controls access to who can create a new case, copy a case and Disallow New Matters.

Strong Room Maintenance:

Controls who can add, change, remove, withdraw and replace items in the strong room

Time Ledger Maintenance:

Controls who can edit Post Time entries e.g. add comments, change the rate

Time Write Off:

Controls who can write off time on a matter using either the Time Ledger or the Maintain Tab.

User Administration:

Controls who can set up Users, create Handlers and Fee Earners.

Document Search:

Controls who can search for documents using the Document Search on the Search/Open screen

Maintain Ribbon Bar:

Controls who can see and maintain information contained on the Maintain Ribbon.

Matter Archiving:

Controls who can enter information on the Archive Tab on the Current Case Details e.g. close a matter or enter an Expected Destroy Date.

Partners:

Controls who has access the information on the Partners Ribbon

SAM4:

Controls who can Draft an Invoice, Request a Cheque, see the A/c Ledger on the Client/Case Screen, see My Invoices and My Cheques on the Search/Open Screen

Strong Room:

Controls who can see the Strong Room on the Client/Case Screen and on the Search/Open Screen

System Reports:

Controls who can access the System reports option. Note: Limited access can be given using the Reports Ribbon.

Time Recorders:

Controls who can use the Timer, Post Time, Access the Time Ledger and Time Costing Screen.

Undertakings:

Controls who can create an Undertaking on the Client/Case Screen

User Defined Reports:

Controls who can access reports specifically designed for the company.

Profile Control Access

When a number of people require the same level of access setting up User Profiles is a quicker and more efficient way of controlling access. The access is granted at the Profile level and people are assigned to the appropriate Profile.

1. Go to the Setup Tab and select User Setup.
2. Click on Profile Control Access.

Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Can maintain Time Entries belonging to others	Change Client Charge Out R
---------	-----------------------	----------------------------	---------------	-------------------	---------------------	--------------	--------------	---	----------------------------

3. In the Add Profile box enter the name of the Profile Group e.g. Secretary, Fee Earner etc.
4. Click Add Profile

Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Can maintain Time Entries belonging to others	Change Client Charge Out R
Fee Earner	☒	☒	☒	☒	☒	☒	☒	☒	☒
Secretary	☒	☒	☒	☒	☒	☒	☒	☒	☒

5. Remove the tick from the area to be locked down from the Users

Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Can maintain Time Entries belonging to others	Change Client Charge Out R
Fee Earner	☒	☒	☒	☒	☒	☒	☒	☒	☒
Secretary	☒	☒	☐	☒	☒	☒	☒	☐	☒

6. Click to the Handlers Tab

Profile	Handler
	Admin
	Anne Mallon
	Brian Sweeney
	Carol Nolan
	Justin Phelan
	Mark Kelly
	Martina Winters
	Stephen Keogh

Link & Replace Restrictions Link & Apply Restrictions Unlink & Remove Restrictions Unlink & Do Nothing

7. Select the handlers to be add to the first group (Use <Ctrl> to select multiple Users).
8. In the bottom right corner click on the down arrow and select the relevant group. You may have to exit Profile Control Access and re-enter to see all profile groups in the drop down.

9. Click Link & Apply Restrictions.

10. Repeat until all users are in their correct groups.
- NOTE:** Users may be added to more than one group.
11. Click on the X to close the screen
12. Select Handler Control Access to view individual users' access.

Handler	OR All Handlers	Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Can maintain Time Entries belonging to others	Change Client Charge Out Rates	Change Day Book Handler	Change M...
All Handlers	☒		☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒

Admin	☐		☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒

Changing a User's Profile

1. Select the user's name in the Profile Control Access
2. Select the correct profile and click Link & Replace Restrictions.

Alternatively:

3. Select the name
4. Click Unlink Handler & Remove Restrictions.
5. Select the correct profile and select Link & Apply Restrictions.

Change Profile Group Permissions

1. Open Keyhouse Control Profile Maintenance
2. Make the necessary changes to the profile concerned by ticking or unticking the appropriate boxes.

Profile	Access Firm Phone Log	Access to Know Your Client	Accounts User	Action Flow Setup	Add Associate Types	AML Approval	Bank Details	Can maintain Time Entries belonging to others	Change Client Charge Out R
Fee Earner	☐	☐	☒	☒	☐	☒	☒	☒	☐
Secretary	☒	☒	☐	☒	☒	☐	☐	☒	☒

3. Click to Handlers
4. Select all users within the profile concerned.
5. Set the Select Control Profile to the required profile e.g. Secretary
6. Click on Link and Replace Restrictions

Profile	Handler
Fee Earner	Brian Sweeney
Fee Earner	Carol Nolan
Fee Earner	Justin Phelan
Fee Earner	Stephen Keogh
Secretary	Anne Mellon
Secretary	Mark Kelly
Secretary	Martina Winters
Secretary	Admin

Select Control Profile: Secretary

Link & Replace Restrictions Link & Apply Restrictions Unlink & Remove Restrictions Unlink & Do Nothing

Remove a User from a Profile

1. Select the user.
 2. Click Unlink & Remove Restrictions to give the user full access
- Or
3. Unlink and Do Nothing which will remove the user from the group but keep their restrictions.

USER REPORT ACCESS

Reports hold large amounts of data in relation to client and the business. This information needs to be stored securely. To prevent users seeing confidential information, access to the reports must be controlled. This can be done by removing/limiting access to this function of Keyhouse. As detailed in the User Access section, access to reports can be blocked but it may be necessary to give access to specific reports. This can be done by creating Report Groups with access to specific reports and adding users to the groups.

Create a Report Group

1. Click Reports Tab and select Create Report Group

The screenshot shows a window titled "Maintain Permission Group" with a close button (X) in the top right corner. Below the title bar are three buttons: "Add", "Change", and "Delete". Below these buttons is a table with three columns: "Group ID", "Group Name", and "Description". The table is currently empty, and a vertical scrollbar is visible on the right side of the table area.

2. This will open the Maintain Permission Group screen and click Add.
3. You will be asked to enter a Code for the Report Group and a brief Description.

The screenshot shows the "Maintain Permission Group" window with the "Add" button clicked. A modal dialog titled "Change GroupModule" is open in the foreground. The dialog has two input fields: "Code" with the value "FEE" and "Description" with the value "Fee Earner". Below the input fields are "OK" and "Cancel" buttons. In the background, the "Maintain Permission Group" window shows a table with one row: Group ID: 2, Group Name: FEE, Description: Fee Earner.

4. Enter the details and click OK.

Set Reports Available To This Group

1. Click on the Report Tab and then select User Reports Permission.

2. The Report Group just created is now visible
3. Untick the box for the reports you do not wish members of this group be able to see
NOTE: To quickly remove the ticks from all boxes for a Group, right click and select Untick All.

NOTE: Do not untick the All Handler options as this will deny access to all users for all reports.

Make Users A Member Of The Report Group

1. Go to the Setup Tab and select User Setup.

Maintain User Security										
New User Import Users Record Security Handler Control Access Profile Control Access										
Search										
Code	Name	Team	Active	Supervisor	TeamCode	Retired	Family Law	Management	Sensitive Files	
ADM	Admin	Commercial	Yes	Yes	COM	N	Yes	Yes	Yes	
AM	Anne Mellon	Conveyancing	No	No	CON	N	No	No	No	
BS	Brian Sweeney	Commercial	Yes	No	COM	N	Yes	Yes	Yes	
CN	Carol Nolan	Commercial	Yes	Yes	COM	N	Yes	Yes	Yes	
JP	Justin Phelan	Conveyancing	No	No	CON	N	No	No	No	
MK	Mark Kelly	Commercial	No	No	COM	N	No	No	No	
MW	Martina Winters	Commercial	No	No	COM	N	Yes	Yes	Yes	
SK	Stephen Keogh	Commercial	No	No	COM	N	Yes	Yes	Yes	

2. Select the required user and right click

- Click Set Report Module Privileges and tick the appropriate box to make this user a member of this Report group.

Deactivate this handler
Reset the Password for this Handler
Change
Make this handler a Supervisor
Set Handler's Group privileges
Set Report Module Privileges
☐ All Handler
☒ FEE

- The selected user now only has access to those reports which have been set as accessible by the Report Group.

NOTE: you may set as many Report Groups as you wish, each with varying access. Users may be made members of multiple Report Groups but if they are denied access to a report in one Report Group then even if given access through another Report Group they will not be able to access the report.

Partner Tab

A set of reports has been designed specifically for partners. Visibility of this tab is determined by how the User has been set up e.g. as a Partner, Solicitor or Support Staff. Access to the reports can also be controlled using Handler Control Access/Profile Control Access.

Set a User as a Partner

- Go to the Maintain Ribbon and select Handler.
- Select the User required and click Edit.

Code	Name	Team	Rate
ADM	Admin	COM	150.00
AM	Anne Mellon	CON	120.00
BS	Brian Sweeney	COM	250.00
CN	Carol Nolan	COM	150.00
COM	Commercial	COM	0.00
CON	Conveyancing	CON	0.00
DBT	Debt Recovery		0.00
GCU	Geraldine Curran	DBT	0.00
JP	Justin Phelan	CON	180.00
LIT	Litigation	LIT	0.00
MK	Mark Kelly	COM	0.00

- Set the Type to Partner.

- Click OK and then click on the X to close the window.
- This will give the User access to the Partner Tab.

Restrict Access to Partner Tab

It may be decided that not all partners should have access to the Partners Tab and their access must be restricted.

- Go to the Setup Tab and select User Setup
- Click on Handler Control Access
- Select the User required
- Scroll across to the Partner column and untick the box

Handler	OK All Handlers	New Client	Partners	Precedents	SAMA	Setup New Case	Strong Room	Strong Room Maintenance	System Reports	Time Ledger Maintenance	Time Recorders	Time VI
All Handlers	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Mark Kelly	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Brian Sweeney	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Justin Phelan	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Martina Winters	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Stephen Keogh	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Anne Mallon	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Carol Nolan	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Geraldine Curran	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒
Admin	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒	☒

- Close the Window.

- The Partner Tab will be visible but the reports will not be available on the ribbon.

Restrict Access to Partner Tab using Profiles

- Go to the Setup Table and select User Setup
- Select Profile Control Access
- Go to the Partner column and remove the ticks from the required profiles

- Go to the Handler Tab
- Select all users within the amended profile
- Select the Control Profile and click Link & Replace Restrictions

- Repeat for all changed profiles
- Click on the X to close the window.

ADMINISTRATION

Administration allows for the creation of system wide settings.

System Options

1. On the Setup Ribbon click on Administration

2. Select System Options

The General Tab	The storage locations for clients and precedents documents can be change here. The use of the Document Folder function can be set from here. It also allow the user to select how documents will be named. It will also allow for the creation of a default Associate type. The Overview Settings are set here.
Keyhouse Options	Configured by Keyhouse at setup. Please do not adjust with prior consultation with Keyhouse
Risk Management	Allows the user to set warnings and limits
System Options	Allows the user to set Account Settings and Preferences
Notify by Email	Allow the user to set up email notification for Invoice and Cheque approval.

Money Laundering	Allows the user to set the Money Laundering Settings and Document Matter settings
More	Category types and Client Numbering system are set here. It is also possible to rename the Ref1-Ref3 fields. The Fee related fields can be made compulsory from this tab.
Keyhouse	From this tab you can set system wide permissions including marking documents as Read Only when an action is completed.
Mail Configuration	Please do not adjust with prior consultation with Keyhouse.
Outlook Settings	The settings required for the Outlook Integration are set here.
Revenue	This screen will allow you to enter information related to Debt Recovery for the Revenue Commissioners.
Matter/Client Code Configuration	Allow the user to control how Client & Matter codes are generated and the type of code generated.

Other Administration Options

System Log

Records errors which allows for faster resolutions.

Outlook Settings

Holds the Outlook Integration settings – please do not adjust

Export/Import Views

Allows for the import and export of the standard Keyhouse views.

Estimate Fee Log

Records all changes made to estimated fees on matters.

Personal Settings

Each individual user has the ability to change their own personal settings. This is done through the Personal Settings option on the Setup Tab.

1. Click on the Setup Tab and then select Personal Settings.
2. Select Preferences

3. From here the user can make changes needed to set their own personal settings.

4. It is also possible to set a label printer and changing user's passwords.

PART 3: SETTING UP CASE PLANS

INTRODUCTION

This document is designed to inform the reader how to complete the case setup section of the Keyhouse Console. Within this document you will learn how to customise the set-up specific to your firm's needs. This manual will begin with the set-up of the different case types required by your firm. Then a case action flow will be completed for each case type, complete with detailed actions, associated actions and associated documents. The aim of this document is to familiarise you, the user, with all these operations. Good luck! And we hope you enjoy the efficiency of the Keyhouse Console.

Objectives

- Background Overview
- Set-up of Case Types
- Set-up of Case Action Flow
- Set-up of Actions
- Set-up of Associated Actions
- Set-up of Associated Documentation

Preparation Needed

In order to successfully complete the set-up section of the Keyhouse Console, it would be beneficial if you gathered the following information.

1. A list of the types of cases your firm deals with e.g. Sale of Property, Wills etc.
2. Upon completion of Step 1, examine each case type individually and compile a list of the steps needed to complete each case type. Be as thorough as possible.
3. Then examine the order in which you complete each step.
4. Finally, examine the type of documents that need to be completed at each step in your case action flow.

Remember that good preparation will ensure your maximise the benefits of your Keyhouse Console.

BACKGROUND OVERVIEW

Before we begin it might be useful to look at how each step of the set-up interacts with each other, below is a graphical representation of this:-

Case Action Flow Setup:	This is the list of steps needed to complete a type of case. It is made up of Actions, Associated Actions and Associated Documents
Case Type:	This is the type of case in use e.g. Purchase of Property.
Action:	An Action is a step within the case action flow.
Associated Actions:	Associated Actions are actions associated or connected with that action.
Associated Documentation:	Associated Documents are documents associated with that step or action.

Case Action Flow/Plan

Explanation:

Illustrated in the above diagram we can see that each case type is made up of a case action flow, this is a list of steps that need to be completed. The case action flow is subsequently made up of a series of actions or steps. Each Action may then have associated actions and associated documents, connected with it. Please see the following simplified example of a case type and a case action flow.

Example

Case Flow Plan for a Litigation case type

For more examples see appendices to the rear of the manual.

Frequently used Icons

Create a New Action

Edit an Action

Delete An Action

Print the Selected Case Plan

SET-UP OF CASE TYPES

Introduction

As previously mentioned the set-up of different case types will involve quite an amount of consideration but once the list of different case types is compiled the set-up of the different case types is reasonably straightforward. The set-up of the case type is the first step in case set-up section of the Keyhouse Console.

In this section we familiarise ourselves with the following tasks:

- Adding New Case Types
- Removing Case Types
- Amending Existing Case Types

Adding New Case Types

1. Select Setup from the list of Tabs
2. Select Case Work Flow Setup from the Ribbon. The following dialogue box will appear.

3. To add a Case Type click on the Green Plus beside the Case Type. The following dialogue box will appear.

4. Type in an appropriate code in the Code box e.g. LIT for Litigation, this code must be unique and 3 characters in length.

Tip: It would be advantageous to compile a list of appropriate unique codes for each case type.

5. Type a description in the Description box e.g. Purchase Work Flow.
6. Below the Description Box you can see a series of tick boxes. Tick the most appropriate category for the case type.
7. Leave the Precedent Documents blank, it will create a storage location for the precedent documents.
8. When completed click the OK button and the case type just created will appear in the Case Type List.

Controlling Access To A Case Plan

1. Select Setup from the list of Tabs
2. Select Case Work Flow Setup from the Ribbon. Click on the Down Arrow beside Case Type to get the list of all existing case plans. The following dialogue box will appear.

3. Select the case plan you want to restrict.
4. Click on the Edit button (Pencil) beside the Case Type Drop Down Arrow. The following dialogue box will appear.

5. Click on the Access Control tab. The following screen will appear.

The screenshot shows a dialog box titled "Change Case Type" with a close button (X) in the top right corner. It has two tabs: "General" and "Access Control", with "Access Control" being the active tab. The text inside the dialog reads: "Restrict access to this case plan for handlers assigned to the following department. Leave the department blank to allow all user to have access to this case plan." Below this text is a label "Department" followed by a dropdown menu that currently displays "Select department". At the bottom right of the dialog are two buttons: "OK" and "Cancel".

6. Click on the Down Arrow to get a list of departments, select the department to use this case plan.

NOTE: Only handlers assigned to this department will then have the option of choosing this case plan.

Amending An Existing Case Type

1. Select the required case plan as before.
2. Click on the Edit button (pencil) beside the Case Type Down Arrow.

3. The following dialogue box will appear. Make any required changes and click the OK button and these changes will then take place.

Retire A Case Type/Plan

Once a case plan is no longer required it can only be retired. This will prevent it from being selected in error.

1. Select the required case plan as before.
2. Click on the Edit button (pencil) beside the Case Type Down Arrow.

3. Tick the Retired Button. This will remove it from the list of Case Plans.
4. Click OK.

Copy A Case Type/Plan

A Case Plan can now be copied and it creates a new set of coded documents.

1. Go to Setup and click on Case Work Flow Setup.
2. Locate the Case Plan to be copied

- Click Copy Case plan/type button.

- Click Copy Case plan/type button.

- A new case plan has been created.

- The Follow Up Actions are still linked to the original Case Plan and will need to be changed to the new workflow. See Amend an Associated Action (p. 72)

SET-UP OF CASE ACTION FLOW

Introduction

After setting up the different case types it is essential to compile a list of steps involved in each case type, these steps are known as actions. The Case Action Flow as illustrated in the Introductory section is made up of a series of Actions, these actions in turn, have Associated Actions and Associated Documents. In this section we will familiarise ourselves with the following tasks:

- Set-up of a Case Action Flow
- Creating New Actions
- Amending Existing Actions
- Removing Actions
- Importing Zipped Case Plan Files
- Exporting Case Plans as Zipped Files

Setting Up A Case Action Flow

1. Select the case plan as before.
2. Click on the Green Cross under the Actions Followed

3. The following dialogue box will appear.

4. Add a Unique Number Code for this action in the action code box. This code should be representative of the position the action/step is in the case plan e.g. RHP02 is the second step in the Residential House Purchase Case Plan.

5. Complete the following details in the Properties Tab.

Priority:	Set the priority of this action e.g. Normal, High, Low using the drop down list provided.
Milestone Actions:	Use the tick box provided to indicate if it is a Milestone Action i.e. a very important task. For example serving a summons would be a Milestone Action.
Billable:	Use the Tick box provided to indicate whether a bill is due to be issued at this stage of the Case Action Flow.
Status:	The Status of the action is the stage of completion of this action for example an action could be an Initial Letter, Judgement Papers Filed, Summons Issued, Case Settled etc.
Action Category:	Select the appropriate Action Category using the Option Buttons available.
Publish:	The Publish option is only available for those who have internet and export services available. Publishing an action will allow the action to be viewed or exported to an external source. Below is a list of options available. Web thin/client: Publish the action on the internet so that it can be viewed by clients who have this service. Export the action to external sources e.g. as an entry in a database. All will publish the action through the Internet and exports it to an external source. None will do none of the above.
Process Type:	This refers to whether the action is going out or coming in. For example a letter to a client would be going out therefore the process type would be "out". A Note/Internal Memo process type would be "other process" as it is neither going in or out. Select the Option button for the required process type.
Auto Populate:	This will automatically add the action to the Case Diary when the case is created.
Required Action:	This will prevent the action being removed from the Case Diary
Auto Alarm Action:	Set a reminder on the action
Hold Current Case Plan:	This will prevent the Case Plan from changing on completion of an action that was added to your Case Plan from an existing Case Plan and where a follow up action exists.

6. Click to the Auto charging Tab.

The screenshot shows the 'Change Action' dialog box with the 'Auto charging' tab selected. The 'Case Plan' is 'Shared Ownership acquisitions & disposals' and the 'Action code' is '0020'. The 'Action' field contains 'Contract/Title received no instruction'. The 'Auto charging' tab is active, showing options to 'Change matter charge arrangement to' (with a dropdown arrow) and 'Recoverable cost to be charged on complication of this action' (with a value of '0'). There is also a checkbox for 'Post interest on complication of this action'. The 'Save' and 'Cancel' buttons are at the bottom right.

7. From this screen the charging arrangements can be changed on the completion of the action.
8. Click to the Task Assignment Tab

The screenshot shows the 'Change Action' dialog box with the 'Task Assignments' tab selected. The 'Case Plan' is 'General Office Work' and the 'Action code' is 'G01'. The 'Action' field contains 'Initial Attendance'. The 'Task Assignments' tab is active, showing three sections: 'Assign Action Handler' (with radio buttons for 'Logged On Handler', 'Case F/E', 'Case Partner', 'Client F/E', and 'Other'), 'Assign Action To Team' (with radio buttons for 'Logged On Team', 'Case Team', and 'Other'), and 'Action Authorisation / Completion Required By' (with radio buttons for 'Logged On Handler', 'Case F/E', 'Case Partner', 'Client F/E', 'Any Partner', and 'Other', and a checkbox for 'Password Required'). Below these sections is a table with columns 'Action Code', 'Description', and 'Time Frame'. The 'Save' and 'Cancel' buttons are at the bottom right.

9. From this screen actions can be assigned to specific users and teams by selecting the required option.

Logged on Handler: If you would like the user of this case plan to receive the follow on actions leave the Assigned Action Handler option button as “Logged on Handler”.

Case FE: If you would like the Case Fee Earner of this case plan to receive the follow on actions leave the Assigned Action Handler option button as “Case F/E”

Case Partner: If you would like the Case Partner of this case plan to receive the follow on actions leave the Assigned Action Handler option button as “Case Partner”

Other: If you would like it to go to another specified handler choose the “Other” option button. Use the Down Arrow to locate the required user.

- Logged on Team:** If you would like the logged on team for this case plan to receive the follow on actions leave the Assigned Action to Team option button as “Logged on Team”.
- Case Team:** If you would like the case team for this case plan to receive the follow on actions leave the Assigned Action to Team option button as “Case Team”.
- Other:** If you would like it to go to another specified team choose the “Other” option button. Use the Down Arrow to locate the required team.

10. Action Authorised/Completion Required by will allow you to control who completes the action if it is to be someone other than the assigned person.
11. When you have completed all the above steps click the OK button.
12. Repeat the procedure to add additional actions.

Amend An Existing Action

1. Select the Action you want to amend.
2. Click on the Edit button (Pencil) under the Actions Followed Tab.
3. Amend as required and click the OK button.

Remove An Existing Action

1. Select the Action you want to remove.
2. Click on the Red X under the Actions Followed Tab.
3. A message box will appear asking you “Are you sure you want to delete this item?”.
4. Click the Yes button to remove.

NOTE: If the Action has associated actions or documents you will not be able to delete the action. Therefore in order to remove the action the associated actions and associated documents would have to be removed first.

Sequencing Actions

The sequencing tool allows you to alter the order or sequence of the actions in the case plan.

1. Select the Action you want to reposition.
2. Click on the sequence button required. As described below:

The first button will reposition an action to the top of the case plan.
 The second button will reposition an action up one level.
 The third button will reposition an action down one level.
 The fourth button will reposition an action to the bottom of the case plan.

NOTE: An action will still hold its original code therefore affecting associated actions.

SETTING UP ASSOCIATED ACTIONS

Introduction

Once the action has been inputted it is then possible to add an associated action to it. Associated actions are actions connected with the main action. In this section we will familiarise ourselves with the tasks.

- Creating Associated Actions
- Removing Associated Actions
- Amending Associated Actions

Creating An Associated Action

As described previously associated actions are connected to existing actions in our case action flow. Therefore, by adding associated actions to an action we are amending this action.

1. Select the required Case Plan as before.
2. All the actions in this case type are displayed.
3. Select the Action you want to add the associated action to.
4. Click on the Follow Up Action Tab

Decision	Next Action	Description	When	When Type	Action
----------	-------------	-------------	------	-----------	--------

5. Click on the Green Cross and the following dialogue box will appear.

On Completion of: RHP01 Send initial letter to client.

Then : Do Response from Client

In : 7:00 Days Time

Starting On Completion of: RHP01 then you do
Click on the down arrow and a list of actions will be displayed.

On Completion of: RHP01

Send initial letter to client. ☒

Then: Do

Response from Client

In: 7.00

rh

Action Code	Description
DESC	Residential House Purchase
RHP01	Send initial letter to client.
RHP02	Response from Client.
RHP03	Contact the Land Registry
RHP04	Reply from Land Registry

Enter the first letter of the action codes to show get to the required actions.

Select the action required

Click on the down arrow to the left of time and select the time frame required e.g days, weeks, now.

Click on the down arrow to the right of the In box and specify the period.

- Click Save to link the actions. The Associated Action will then be visible in the Associated Action Window.

To Amend An Associated Action

- Select the Associated Action you want to amend.
- Click the Edit button (Pencil)
- The Change Associated Action dialogue box will appear.
- Make the required changes and click the OK button. These changes should be visible in the Associated Actions tab.

To Remove An Associated Action

- Select the Associated Action you want to remove.
- Click the Delete Button.
- A message will appear asking you to confirm the deletion. Click the Yes Button.

SETTING UP ASSOCIATED DOCUMENTS

Introduction

Associated documents are documents connected with an action or step i.e. Documents that need to be completed at that stage of the Case Action Flow/Plan.

There may be times when you may need to customise an existing library document to meet your requirements. In order to do so you may need to insert extra fields into the document or maybe create your own fields.

In addition you may need to create a new document to add to your document library. To assist in the creation of these documents you can import an existing Word document into your document library and amend as required. Below is a list of tasks to be covered in this section:

- Creating a New Associated Document
- Import a document to create a New Associated Document
- Amending an Associated Document
- Removing an Associated Document
- Adding an existing Associated Document
- Coding a Precedent Document
- Creating User Defined Fields

Creating A New Associated Document

1. From the Setup Tab select Case Work Flow Setup from the Ribbon.
2. Select the Case Plan as before.
3. Double click on the Action you want to add the associated document to.
4. Select the Associated Documents Tab. The following options become available.

5. Below is an explanation of each tool used in creating associated documents.

Add a new document

Select a new document

	Change/Amend document settings
	Delete an associated document
	Select a document to import
	Open selected document
	Document Properties

6. To create a new document click on the Green Plus. The following dialogue box appears.

7. A code will be assigned automatically. It is made up of the Case Type Code and the Action Code plus a letter A, B C etc. in succession.
8. Enter the Document Name in the Name box e.g. Letter to Plaintiff's Solicitor Re: Notice for Particulars.
9. Type would be Word Document but this can be changed to match the type of document to be added by clicking the ... button.
10. Click on the ... button to set the classification for the document. This is used in connection with the Brief Builder Module.
11. IF the code you want is not present, click on the Green Plus within the Document Class window. Enter a three letter code in the Class Code box and a description in the Description box and click OK.

12. The newly created Class will then be available in the Document Class window.
13. Click on the Create Document button, a blank Word document will open. Create the document as required.
14. The document will then be visible in the associated document window of the action.

Import A Document To Create A New Associated Document

There may be occasions when you already have the basic text of a document created that can be used as the foundation of a new document. Follow the instruction above from Step 1 to 11. Then follow the steps below.

1. Click on the Import Document button . The following dialogue box will appear.

2. Browse for the document of your choice then click on the Open button.
3. The document will then be opened along with the Document Assist.
4. Close Microsoft Word.
5. Return to the Keyhouse Console Window. The document will then be visible in the Associated Document code at a later stage in the Section “Coding a Precedent Document”.

To Remove An Associated Document

1. Select the Associated Document you want to remove.
2. Click on the Red X.
3. A message box will appear asking you “Are you sure you want to delete this Associated Document? Click the Yes button and the associated document is removed.

To Amend An Associated Document

1. Select the Associated Document you want to amend.
2. Click on the Open Selected Document  located on the Associated Documents screen.
3. Amend the document as required.
4. When complete save the changes and close the document.
5. Return to the Keyhouse Console.

Add An Existing Associated Document

1. Click on the Select a New Document button .
2. The following dialogue box will appear.

3. Click on the Browse Button  to display a list of documents in your document library. The following Document Library dialogue box is displayed.

4. Search for the Document required using the search facility.
To use the search:
 - a. Type part of the document name in the search box provided and click enter if needed.
 - b. A list of documents will be returned. Select the document required and click on the Select button.
5. You have the choice to open and view the document using the Open command .
6. If this document is an optional document check the Optional check box.
7. Click the Save button to add the associated document.
8. The document will then be displayed in the Associated Documents window.

Coding A Precedent Document

When coding a document we are adding fields from our Keyhouse Console to a normal Word document to allow it to be generated through our Keyhouse Console diary. This will facilitate a normal document merge with data from our case management system to create individual client letter and documents.

1. From the Case Work Flow Setup window open Document Assist.
- 2.

3. Select the Associated Document you want to code.
4. Click on the Open Selected Document button .
5. The Document Assist displays all field that may be added to a document. For more information on the Document Assist go to the Section: Guide to the Document Assist
6. Click on the document where the field is to be added
7. In the Search box enter a word related to the information required e.g. address.

8. All commonly used fields are visible however it may be necessary to tick the Show all fields box to see your required field.

9. Click on the Chevron to collapse the categories.
10. Open the category you need

11. Double click on the required field to add it to the document.
12. Move to the next location on the document and continue until all required fields have been added.
13. Save the document when completed and close.

NOTE: The document will not show specific information until it is generated through the Console Diary.

ADDING A POPUP PARAGRAPH TO A PRECEDENT

The code below is how to code for a PopUp paragraph on your Precedent – write in the code where the paragraph itself will be placed:

E.g. [SYS:dpopup('XXX')] where XXX is the category name you assigned when setting up the PopUp paragraph

You can have multiple paragraph options.

IMPORTING A DOCUMENT TO A PRECEDENT

This will allow you to import a document stored outside Keyhouse to a Precedent document stored in Keyhouse.

1. Go to the Setup Tab and open Case Work Flow Setup.
2. Open the Work Flow containing the Precedent.
3. Double click on the Action that contains the document.
4. Open the Associated Document Tab and double click on the Document.
5. Go to the location where the document is to be inserted.
6. Enter the following:
[IMP:filepath]

[MAT:Code][MAT:FeCode][UDF:SecRef]

[DATE:Today]

Re: [MAT:Description]

Dear

[IMP:N:\Approved Doctor.docx]

Yours faithfully

[DIA:CompanyName]

7. Save and close the document.

CREATING AN EMAIL TEMPLATE WITHOUT AN ATTACHMENT

1. Choose the required Workflow.
2. Open Document Assist.

3. Create a new action.

4. Set the properties to Email and save.
5. Open the Action and click on the Email Tab.

6. Click on the green plus sign to create a new email.

7. Using Document Assist to Code the Email with the relevant information and type the text required.
8. Save the changes.

Add Action

Case Plan: Using Email Templates

Action code: 1

4. Set the properties to Action and save.
5. Open the Action and click on the Email tab.

6. Click on the green plus sign to create a new email.

7. Using Document Assist to Code the Email with the relevant information and type the text required.
8. Tick the Include Attachments button. It is also possible change the priority of the mail and to send a PDF Version of the attachment.
9. Click to the Associated Documents Tab and create the required document as detailed in section "Setting Up Associated Documents".
10. Click save and then save again.
11. Click Cancel to close the Workflow.

GUIDE TO THE DOCUMENT ASSIST

1. Case Associates – are everyone connected to the case other than the client and the fee earner. For example – the other side’s solicitor, the doctor, the land registry, the lending institution, the court, the defendant, the witness etc.
 - a) First pick the appropriate case associate type from the drop down list provided. For example Solicitor, Doctor, Witness etc. This will determine which category of case associate the user will be prompted for on this document.

You may want your document to cater for one/more solicitors on a file:

 - i) First Solicitor on a file use the following code for his/her name [CAN:Name.Solicitor#01]. This will allow the user only to add the first solicitor’s name to the document.
 - ii) Second Solicitor on a file use the following code for his/her name [CAN:Name.Solicitor#02]. This will allow the user to add the second solicitor’s name to the document.
 - iii) If you want to cater for multiple solicitors on a file then the code would be the following code for his/her name [CAN:Name.Solicitor#??]. This will pause and ask the user which solicitor’s name they want added to the document.
 - b) Example of Advanced Codes:
 - i) [CAN:Name.Solicitors#??] produces a separate letter for each solicitor selected.
 - ii) [CAN:Name.Defendant#@,] lists multiple defendants in a document with a “comma” between them.
 - iii) [Can:Name.Defendant#@&] list multiple defendants in a document with an “and” between them.
 - iv) [CAN:Name.Defendant#@R] lists multiple defendants in a document with a “line” between them.
- NOTE:** If it is a single defendant then it doesn’t enter the comma etc.
2. Case Diary – this is a list of items from the case diary window. For example the date of the action, the action number.
 3. Case/Matter details – this is the information input in the matter record. For example the matter code, the matter description, the fee earner name and code connected to this case etc.
 4. Client Details – this is the information inputted in the client record. For example the client’s name, address, date of birth, marriage, telephone number etc.
 5. Client Contacts – this is the information inputted in the client contacts section of the client record. For example the client spouse could be setup as a contact – Name, Address, PPS number, date of birth etc.
 6. Fee Earner/Handler – this information inputted in the handler/fee earner record. For example it could be the current handler logged in details or the details of the fee earner assigned to this matter – Fee Earner Name, Fee Earner Code, Current Handler’s code etc.
 7. Important Dates & times – this contains fields that contain the date of a particular action or today’s date - Today’s Date, Action Date etc.
 8. Other Case Details – this is additional information inputted in the other details section of the matter record. For example the “case premises” would be a field displayed in the “Other Details” tab of a conveyancing field or “Balance of Debt” field would appear in the “Other Details” tab of a debt recovery file.
 9. Other Client Details – this is additional information for the client.
 10. User Defined/Other Information – these are fields you create yourself to deal with anything that is not catered for in the above lists.

NOTE: To view additional fields in each category put a tick in the **All Fields** Check Box ☐ Show all fields at the top of the Document Assist dialogue box.

Creating User Defined Fields

On occasion you may want to insert information that is not available from the existing field lists in this case you can create your own fields this will allow you the flexibility to customise your own documents. The information behind these fields will be requested at the point the User generates the document through their Console Diary.

In The Document Assist Window

1. Click on Black Arrow to expand the User Defined/Other Information. The following Window is displayed.

2. Click on the Green Plus. The following dialogue box is displayed.

The 'Add User Defined Field' dialog box has three tabs: General, Validation, and SQL Statement. The General tab is active. It contains the following fields: 'Field Prefix' (a dropdown menu showing 'UDF:'), 'Field Name' (a text box with placeholder 'Enter the field name'), 'Type' (a dropdown menu showing 'Text'), 'Common' (an unchecked checkbox), 'Lock' (an unchecked checkbox), 'Screen Prompt' (a text box with placeholder 'Enter the screen prompt'), 'Length' (a spinner box set to 0), 'Decimal' (a spinner box set to 0), 'Format' (a text box), 'Default Value' (a text box), and 'Category' (a dropdown menu). At the bottom right are 'OK' and 'Cancel' buttons.

3. Fill in the following information:

Field Prefix: The Field Prefix Name is UDF for User Defined Fields

Field Name: Type in a Field Name in the box provided, this must not contain spaces.

Type: Select the **Type** from the drop down list provided i.e. the type of information that will be inputted i.e. Text, Dates or Numbers.

Common: If you want this field always visible in the User Defined list tick this box.

Screen Prompt: The Screen Prompt is the description displayed to the User at the point the document is generated e.g. "Please enter court date?"

Length: Is the Amount of characters that can be inputted in this field. Adjust using the **Up And Down Arrows** as required.

Decimal: Decimal will only be applicable to numbers: this is the amount of decimal places you want visible. Adjust using the **Up And Down** arrows as required.

Format: If the data type is **Date** click on the browse button to select the preferred date format. Otherwise the data type and length will determine the format.

Default Value: This is the value you would like to default to. If applicable, type the default value in the box provided.

The 'Change User Defined Field' dialog box has four tabs: General, Validation, Other, and SQL Statement. The General tab is active. It contains the following fields: 'Field Prefix' (a dropdown menu showing 'UDF:'), 'Field Name' (a text box containing 'Bene'), 'Type' (a dropdown menu showing 'Text'), 'Common' (a checked checkbox), 'Lock' (an unchecked checkbox), 'Screen Prompt' (a text box containing 'Enter Beneficiary Name'), 'Length' (a spinner box set to 50), 'Decimal' (a spinner box), 'Format' (a text box containing '@s50'), 'Fix document format' (an unchecked checkbox), 'Left Justify' (an unchecked checkbox), 'Default Value' (a text box), and 'Category' (a dropdown menu). At the bottom right are 'OK' and 'Cancel' buttons.

When creating a Text Field enter @sxx where xx representing the number of characters set in the length.

When creating a Numeric Field enter @nxx.x where xx.x represents the length and decimal values.

When creating a Date Field enter @d6 to get a date in the format of dd/mm/yyyy or @d18 to get a date in the format of dd/mmmm/yyyy.

Create UDF Validation

Validations can be added for stricter control of the information inputted. A useful option is the “always prompt” command which can be used for fields where the information changes frequently for example the Secretary’s Reference.

Code	Description	Field Name

- No Check:** Will give a blank field where the user enters required data
- Must be True or False:** Will only allow True or False to be entered
- Must be Yes or No:** Will only allow Yes or No to be entered
- Must be in List:** Will only allow the user to enter a value from a list of values
- Required:** Value must always be entered and cannot be left blank
- Always Prompt:** Each time the field occurs the user will be prompted to confirm the data is correct.
- Must be in Range:** Only used with numbers. The user must select a number from a specific range of numbers.

Create a List

1. Click on the Green Plus.

The screenshot shows the 'Change User Defined Field' dialog box with the 'Validation' tab active. The 'Must be in List' option is selected. An 'Add an item to UDF List' sub-dialog is open, allowing the user to enter a new list item with a field name, code, and description.

2. Enter a Code and Description and click OK.
3. Continue until all items have been entered.

The screenshot shows the 'Change User Defined Field' dialog box with the 'Validation' tab active. The 'Must be in List' option is selected. The list of items is populated with three entries: 'Bad' (Poor), 'Exe' (Excellent), and 'Res' (Reasonable). The 'Field Name' column shows 'CreditRating' for all entries.

Code	Description	Field Name
Bad	Poor	CreditRating
Exe	Excellent	CreditRating
Res	Reasonable	CreditRating

4. Click the OK Button.

Other &SQL Statement

Used by Keyhouse for System Codes. Please do not amend without consultation with Keyhouse.

The screenshot shows a dialog box titled "Change User Defined Field" with a close button (X) in the top right corner. The dialog has four tabs: "General", "Validation", "Other" (which is selected and highlighted in blue), and "SQL Statement". In the "Other" tab, there is a label "Formula" to the left of a large, empty rectangular text input field. At the bottom right of the dialog, there are two buttons: "OK" and "Cancel".

NOTE: To insert this field as before, insert your cursor where you want the information to appear. Then double click the Field of your choice. It should then appear in the document displaying its field name. Save the document as normal.

UDF FORMS

Certain cases/matters may need you to capture specific information that will require you to create UDF fields in Keyhouse. These fields can be gathered together using UDF Forms.

Create a UDF Form

1. Select the Setup Tab and then select UDF Form Details

Prompt	File Prefix	Field Name	Type

4. Make the required changes
5. Click Save and OK.

Delete a UDF Form

1. Go to the Setup Tab and select the UDF Form Details.
2. Enter the Case Plan associated with the UDF Form to be changed
3. Select the UDF Form to be changed
4. Click the Delete Button to remove the form.

1. Open the required matter and check the correct Case Plan has been selected on the Current Case Details screen
2. Go to the Extra Case Details Screen.

3. Click on the down arrow beside Default View and select the required form.

4. The UDF Fields will appear on the screen.
5. Complete the fields as normal.

6. The information is now available to use in correspondence if it is included in Case Plan Precedents.

CLIENT OTHER DETAILS

Forms can be created for individual clients. This will enable UDF information to be held at the client level and be visible on all matters for that client.

Create a Client Other Details Form

1. Select the Setup Tab and then select Client Other Details

ADDING INFORMATION REQUIRED TO A CASE ACTION FLOW

Introduction

It may be essential before a specific case type can be processed that particular information is required. This information can be facilitated through the use of User Defined Fields (UDF's). The Information Required Tab is where the User Defined Fields specific to this case type are selected. Below are the instructions on its use.

1. From the Setup Tab select Case Work Flow Setup.
2. Select the required Case Work Flow as before.
3. Select the Information Required Tab. The following dialogue box will appear.

4. Click on the Green Plus and the following dialogue box will appear.

6. Click Select
7. Repeat Step 5-6 until all UDF's have been entered.

8. Once all fields have been entered you can the order of the fields using the reorder buttons.

9. To remove any UDF's no longer required, click on the Red X.

ADDING DOCUMENT FOLDERS TO A CASE ACTION FLOW

When setting up a Workflow, a particular Document Folder structure may be applied. This can be created as part of the workflow and amended for specific matters at a later date, in that matter.

1. Ensure the Document Folder option has been activated on the General Tab of the System Options.
2. Click to the Document folders tab and right click on Documents

3. Click Add new Sub-Folder

4. Enter the name of the Sub Folder and click OK.

5. Additional Sub Folders can be added to Sub Folders.

6. To delete a Sub Folder, right click and select Delete Folder and all its Sub Folders.
7. Click Save and Continue.

Appendix
