Chapter 4: The Case Diary

What is a Case Diary?

The case diary is the electronic equivalent of the paper file of a case. It displays a case plan to help guide you through a case. A Case Plan is made up of a series of Tasks/Actions; these actions in turn are made up of documents which are processed when a task is taken. The Case Diary records completed tasks, generated tasks and outstanding tasks. It shows the date of the task, the person assigned to the task, i.e. the handler, and a description of the task. In addition, information on the client and matter details can also be viewed and amended from this screen.

See the following example of the case diary for Case BEC001/003. It is based on the Sale Workflow. It has a number of tasks in the case diary, several are complete tasks and the others are scheduled for a date in the future.

Standard View

The screenshot displays the 'Keyhouse Case Management' interface for Case ABA001/0001, 'David Abrahams Family Law'. The central table lists tasks with columns for Date, Time, Handler, Synopsis, and Action Co. The tasks include completed items like 'Letter to Solicitor re Pleading' and 'Undertaking changed by BRIANS', and future tasks like 'Undertaking' and 'Letter to Solicitor re Pleading' scheduled for 04 May 2016. The right-hand pane shows a document preview for 'Letter to Solicitor re Pleading' with details like 'ABAO01/0001/BS-GCU' and '04 May 2016'. Callouts identify: 1) Task completed (green checkmarks in the task list), 2) Future Tasks (tasks with dates in the future), Documents Generated (the 'Attachments' section at the bottom), and Document Preview (the right-hand pane).

			24 Apr 2010	13:55	BS	Letter to Land Registry
---	--	---	-------------	-------	----	-------------------------

-  **NOTE:** The owner of the task is the only person who can mark the task as complete. This allows you to assign a task to another handler but ensures you have ultimate control over it.

If you mark an action as complete any precedents which have not yet been generated will automatically generate.

3. A Follow-up action is the next task that needs be processed in this case. This is setup by the administrator when the case plan is created. Any follow-up actions setup to be **“automatically processed”** will be inserted in the case diary automatically.

Chapter 12: Time Recording

Time Recording in the Case Diary

Time can be recorded in the case diary in two ways: automatically using a timer or manually using a time slip. Once time is recorded it is then posted to the Day Book and from there it is posted to the time ledger of the case. Recorded time can be used for billing, reporting and productivity tracking.

Here are the two tools available in the Case Diary for recording time.

Matter: This will show the current case by default; to change, click on the browse button to bring up the matter list and select a different case.

- Description:** This will default to the matter description of the current case but may be amended.
- Date:** The date will default to today's date but may be changed.
- Transfer to Pay:** If this is checked, funds will be transferred from the client account to pay the bill.
- Bill to:** The client details will be shown by default, but the name and/or address may be changed. Click the **Client** button to revert to the client details. 
- Our Ref:** This will default to the Fee Earner's initials, but may be amended if required.

4. The time and outlay to be included in the bill may be input using the **Billing Guide Wizard** or manually.

a. Using the **Bill Guide Wizard**

i) Click on **Billing Guide** at the bottom left corner to start the Billing Guide Wizard.

The left-hand column deals with time, the right-hand one with outlay. In each column, you may select a **date** or enter an **amount**. Different dates may be selected for time and outlay. If you select a date, the time (or outlay) will be written down to that date; if you specify an amount, sufficient time (outlay) will be written down to make up the required amount, with the remainder remaining unbilled and available for inclusion in future invoices.

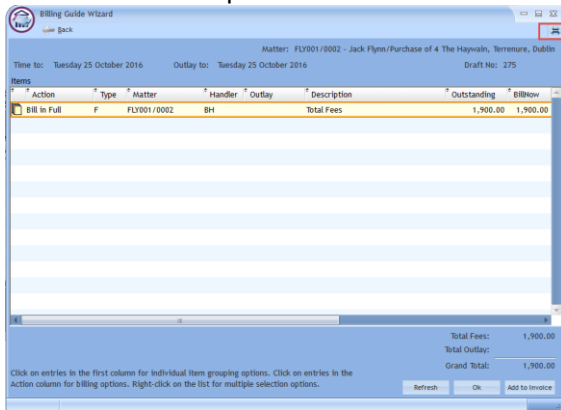

The options for grouping time are:

- Single line of fees — the fee earners will not be listed individually.
- Group by Fee earner — the total for each fee earner will be listed on its own line.
- No grouping — each item will be listed as recorded.

If the box marked No Time/Fees is checked, no time will be included in the bill; all recorded time will remain available for inclusion in future bills.

The options for grouping outlay are similar:

- Single Line of Outlays — a total figure for outlay will be given without listing items separately. You can also run a report that will detail the individual items by clicking on the Report Button.

Chapter 18: The Brief Wizard

This tool automates the task of generating a brief to counsel, saving you time. It amalgamates all the required documentation in chronological order into relevant sections, complete with a cover page, table of contents and pagination.

Important Steps for preparing your Brief

1. Review your documents in the **Document Manager** and ensure the necessary files are classified and the Document Date is correct as it will be in your brief. See **How to reclassify Documents** and **How to change the Document Properties** (p. 85)
2. If you cannot view or open a document from the Case Diary or Document Manager screen you will not be able to use this document in your brief.
3. Once you begin to generate your Brief you should not use your PC for any other purpose until the brief is completed. Several different programs will be used to generate the brief and running another program is likely to cause disruption to generation of the brief.
4. Please review the earlier part of this chapter (Document Manager, particularly p. 82 above) for details on how to rename and reclassify a document.
