## Typographical conventions

**Tip** A tip is a type of note that helps users apply the techniques and procedures described in the text to their specific needs. A tip suggests alternative methods that may not be obvious and helps users understand the benefits and capabilities of the product. A tip is not essential to the basic understanding of the text.

**Note** A *note* with the heading “Note” indicates neutral or positive information that emphasises or supplements important points of the main text. A note supplies information that may apply only in special cases. Examples are memory limitations, equipment configurations, or details that apply to specific versions of a program.

**Caution** A caution is a type of note that advises users that failure to take or avoid a specific action could result in loss of data.

**Important** An important note provides information that is *essential* to the completion of a task. Users can disregard information in a note and still complete a task, but they should not disregard an important note.

# Chapter 1: Getting Started

## Opening Case Management

1. Start Keyhouse by **double-clicking** the Keyhouse shortcut on your Desktop.

**TIP:** If you will always want to start in the same place, tick the box marked **Don't show this screen again**.

A wildcard is useful when you are unsure of how exactly a word may have been entered. The % sign is used as a wildcard in Keyhouse systems and will match any number of characters. Note also the system will use the % for an apostrophe e.g. O'Connor will change to O%Connor.

1. **Input** the first part of the **client’s address**, then a % then the remaining part in the search box, e.g. Ellis%Rathmines and press enter.
2. The system will return any client addresses beginning with **Ellis** ending with **Rathmines**. E.g. Ellis Park or Ellis Drive etc.

 If you right click over the check boxes, the option to Tag All or Untag All is available.

14. Click **Next** to continue to Step 5, which lists the actions in the source matter.
15. The procedure for selecting and copying the actions to the destination matter is similar to those for copying UDFs and Case Associates.

 If you copy any action to the destination matter you will also copy any documents attached to that action.

16. Click **Next** to continue to the final screen.

17. If you check the **checkbox**, details of the fields, Case Associates and actions which were copied, will be saved so that they will be selected by default the next time this source matter is copied. The final screen also provides a summary of the numbers of items copied.

18. Click **Finish** to close the wizard. The copied details are now included in the destination case.

 The matter description will need to be changed on each matter.

## Chapter 4: The Case Diary

### What is a Case Diary?

The case diary is the electronic equivalent of the paper file of a case. It displays a case plan to help guide you through a case. A Case Plan is made up of a series of Tasks/Actions; these actions in turn are made up of documents which are processed when a task is taken. The Case Diary records completed tasks, generated tasks and outstanding tasks. It shows the date of the task, the person assigned to the task, i.e. the handler, and a description of the task. In addition, information on the client and matter details can also be viewed and amended from this screen.

See the following example of the case diary for Case BEC001/003. It is based on the Sale Workflow. It has a number of tasks in the case diary, several are complete tasks and the others are scheduled for a date in the future.

### Standard View

## Configuring the Case Diary Screen

The new version of the Case Diary can be configured in different several ways.

### How to Configure your Case Diary Screen

Now with the new version of the Case Diary each user can configure their diary screen according to their requirements. For example, secretarial staff may generally prefer to view the case plan in their screen while solicitors might only need to see it occasionally.

With the new version, you decide if certain elements such as the case plan should be visible permanently, i.e. fixed, or occasionally, i.e. floating. Likewise, others may prefer their Document preview pane visible permanently or others may prefer to use it occasionally. Below are some examples with instructions on how to create them.

#### Sample 1: Standard Screen with fixed Floating Document Preview Pane

##### How to create this view:

1. Move you mouse over **Preview** to the located to right of the Case Diary Screen the document preview pane will appear.

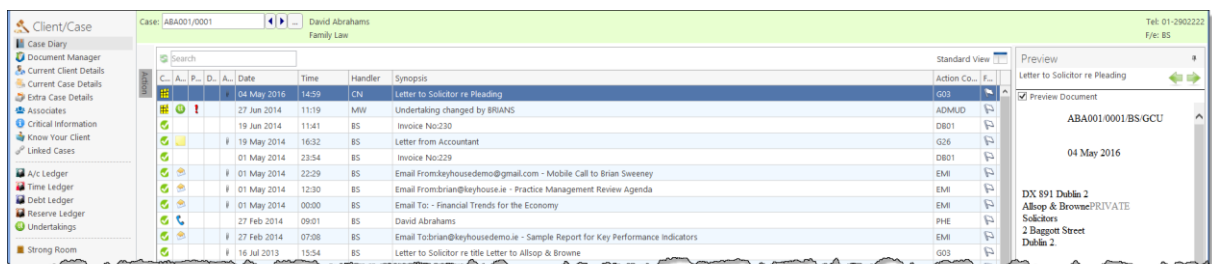

#### Sample 2: Standard view with fixed document preview pane

## Charge Out Rate

When there are multiple fee earners working on a client or matter with agreed rates, Charge Out rates can be set at a client or matter level. This will ensure that the correct rate is applied to each time slip. The Charge Out Groups are set by the System Supervisor and can be applied to each handler with a standard default rate. However, this rate can be changed from client to client and from matter to matter.

The 'Charge Rate Level' section has '3' selected. A table with columns 'Name', 'Rate', and 'Effective Date' is visible, along with 'Add', 'Edit', 'Delete', and 'Delete All' buttons.

## Chapter 6: The Task Manager

When you log in to Keyhouse you can choose to login directly to the Task Manager (see the Chapter 1 for further information). The primary function of the Task Manager is to act as a To-Do list displaying all tasks outstanding. It defaults to overdue tasks but you can navigate to specific dates. Each task will show the date of the task, the matter description, the client name and a description of the task itself.

### Navigating the Task List

#### The Task Screen

The screenshot displays the Keyhouse Task Manager interface. The main area is a task list table with columns for Date, Time, Case Code, Handler, Team, From, Client/Case/Matter, Action, and Diary Date. The table shows a list of tasks, with the selected task being 'Letter to Client?' on 04 Nov 2014 at 17:24. To the right of the table is a document preview pane showing a letter to a lending institution. The interface includes a toolbar at the top with icons for New Item, Print, Capture, Generate, Complete, and Action. A search box is located above the table. On the left, there is a sidebar with task views such as My tasks, Team tasks, Day's tasks, Next week's tasks, Next month's tasks, Overdue tasks, Last week's tasks, Last month's tasks, All tasks, and My Overview. Callouts point to the Toolbar, Search Box, Task views, Task list, and Document Preview Pane.

## Chapter 12: Time Recording

### Time Recording in the Case Diary

Time can be recorded in the case diary in two ways: automatically using a timer or manually using a time slip. Once time is recorded it is then posted to the Day Book and from there, it is posted to the time ledger of the case. Recorded time can be used for billing, reporting and productivity tracking.

Here are the two tools available in the Case Diary for recording time.

The Timer

Manual time slips

Start Blank Timer

Both tools can be found on the Home tab.

The screenshot shows the Keyhouse Case Management software interface. The top navigation bar includes 'Home', 'Case', 'Reports', 'Phone Log', 'Maintain', 'Setup', and 'Help'. The 'Home' tab is active, and a red box highlights the 'Start Timer', 'New Time Slip', and 'Start Blank Timer' icons. The main window displays a case diary for 'Case: FLV001/0001' handled by 'Jack Flynn'. The case title is 'Road Traffic Accident at Junction 9 on M50'. The diary table lists various actions with their dates and times.

## How to Record Time Using the Timer

The automatic timer may be launched by clicking on Start Timer on the Home tab in the Case Diary. The user can easily manage and record time for several cases and tasks. The timer has a clock which can be started and stopped for each task. From here time is updated to the day book ready for posting to the time ledger.

1. **Open** a case in the Case Diary.
2. Click on **Time Ledger** on the **Case Diary** Navigation panel to view outstanding time.
3. Click on **Draft Invoice** on the Home tab. The following Draft Invoice will appear.

**NOTE:** The current balances on the matter are displayed on the right of the screen.

- Message:** Input a message for the account department (optional)
- Type:** **Invoice** will be checked by default. Select **Credit Note** if required.
- Open Invoice:** To create an open invoice, check the **Open Invoice** box.

- Description:** This will default to the matter description of the current case but may be amended.
- Date:** The date will default to today's date but may be changed.

**Transfer to Pay:** If this is checked, funds will be transferred from the client account to pay the bill.

**Bill to:** The client details will be shown by default, but the name and/or address may be changed. Click the **Client button** to revert to the client details.

Client

**Our Ref:** This will default to the Fee Earner's initials, but may be amended if required.

**Your Ref:** Input a reference if applicable.

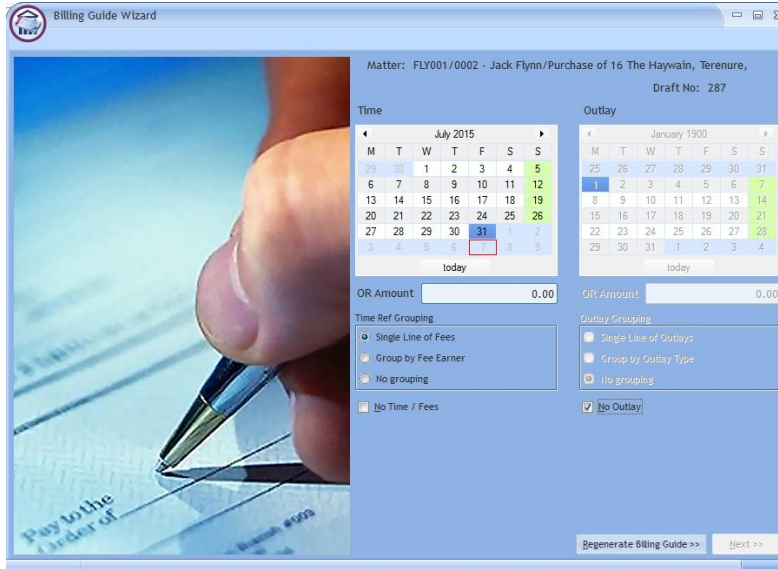

**Write down time to:** Today's date will be shown by default. You may choose a different date.

4. The time and outlay to be included in the bill may be input using the **Billing Guide Wizard** or manually.

a. Using the **Bill Guide Wizard**

i) Click on **Billing Guide** at the bottom left corner to start the Billing Wizard.

 Billing Guide Guide

The left-hand column deals with time, the right-hand one with outlay. In each column, you may select a **date or** enter an **amount**. Different dates may be selected for time and outlay. If you select a date, the time (or outlay) will be written down to that date; if you specify an amount, sufficient time (outlay) will be written down to make up the required amount, with the remainder remaining unbilled and available for inclusion in future invoices.

The options for grouping time are:

- Single line of fees — the fee earners will not be listed individually.
- Group by Fee earner — the total for each fee earner will be listed on its own line.
- No grouping — each item will be listed as recorded.

If the box marked No Time/Fees is checked, no time will be included in the bill; all recorded time will remain available for inclusion in future bills.

The options for grouping outlay are similar:

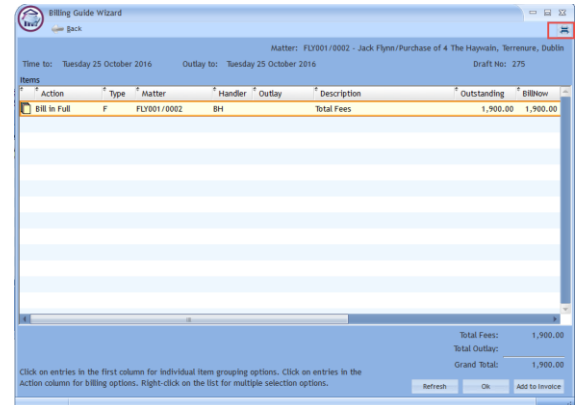

- Single Line of Outlays — a total figure for outlay will be given without listing items separately. You can also run a report that will detail the individual items by clicking on the Report Button.

4. The options to **Export**, **Print** and **Search** the KPI Report are the same as those for the other reports described above.

## Mark Time as Billed/Unbilled

Time can be marked as billed on a matter. This will prevent it from appearing on future Billing Guides and invoices. This can be done in one of two ways – individual lines can be written off, or all time for the client can be written off. The ability to mark time as billed can be restricted. Please see the System Administrator if the option is not available.

**NOTE:** If these options have been used in error and Keyhouse is requested to restore the data, a charge will be incurred.

### Method 1 – Write off Specific Time Entries

1. Open the Time Ledger for the matter.
2. Select the line or lines to be written off. Where there are multiple lines, use the <CTRL> Key to help highlight the lines. As the user is selecting line, a total is accruing at the end of the list of entries.

5. Click Yes and the following dialog box appears.

6. Enter the invoice number that the time will be written off to and click OK.
7. The Time Entries will be marked as billed in the Time Ledger.

## Method 2 – All Unbilled Time

All unbilled time recorded for the client will be marked as billed up to the specified date.

1. Click to the Maintain Ribbon (Access to this ribbon may be restricted by the System Administrator).

2. The following dialog box appears

 A screenshot of a dialog box titled 'Mark Time As Billed By Client'. It contains three input fields: 'Client Code' with a dropdown arrow and a 'Select code' placeholder; 'Invoice No' with an 'Enter the invoice number' placeholder; and 'Date' with a 'Please select date' placeholder and a dropdown arrow. At the bottom right are 'OK' and 'Cancel' buttons.

3. Select the client, enter the invoice number the time is to be written off to and the date the time is to be written off to.

 A screenshot of the same dialog box, but now with data entered: 'Client Code' is 'DEM001', 'Invoice No' is '22', and 'Date' is '28 Feb 2018'. The 'OK' and 'Cancel' buttons remain at the bottom.

4. Click OK and the following dialog box will appear.

 A screenshot of a 'Confirm Message' dialog box. It features an information icon on the left and a message: 'This will mark all time as billed for: John Demoman up to and including 28 Feb 2018. Do you wish to proceed?'. At the bottom are 'Ok' and 'Cancel' buttons.

5. Click OK to complete the write off. All unbilled time is now marked as billed for the client.

## Mark Time as Unbilled

If time has been marked as billed in error, it can be unbilled. This can only be done on the Maintain Ribbon and as such **all** time associated with the Invoice will be marked as unbilled. If using Composite Billing, all time, regardless of the matter, will be marked as unbilled.

1. Go to the Maintain Ribbon and click the Mark as Unbilled button
2. Complete the dialog box, detailing the client and the invoice number

The screenshot shows a dialog box titled "Unmark Time As Billed By Client". It features a title bar with a house icon, the text "Unmark Time As Billed By Client", and a close button. The dialog contains two input fields: "Client Code" with the value "DEM001" and a dropdown arrow, and "Invoice No" with the value "22". At the bottom are "OK" and "Cancel" buttons.

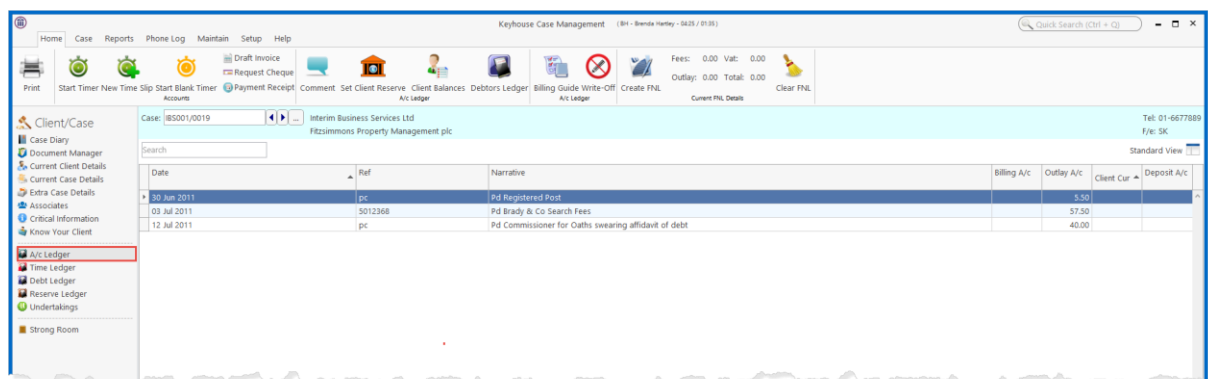

3. Click OK. All time associated with the invoice is now unbilled.

## Chapter 18: The Brief Wizard

This tool automates the task of generating a brief to counsel, saving you time. It amalgamates all the required documentation in chronological order into relevant sections, complete with a cover page, table of contents and pagination.

### Important Steps for preparing your Brief

1. Review your documents in the **Document Manager** and ensure the necessary files are classified and the Document Date is correct as it will be in your brief. See **How to reclassify Documents** and **How to change the Document Properties** (p. 96)
2. If you cannot view or open a document from the Case Diary or Document Manager screen you will not be able to use this document in your brief.
3. Once you begin to generate your Brief you should not use your PC for any other purpose until the brief is completed. Several different programs will be used to generate the brief and running another program is likely to cause disruption to generation of the brief.
4. Please review the earlier part of this chapter (Document Manager, particularly p. 93 above) for details on how to rename and reclassify a document.

If you need assistance adding **Document Classes**, please contact your Keyhouse administrator or [support@keyhouse.assist.com](mailto:support@keyhouse.assist.com)

## Generate the Brief

 Before you generate the Brief, if you have any Microsoft Office applications running (e.g. Word, Excel, PowerPoint etc.), save your work and close the application(s).  
**FAILURE TO DO THIS MAY RESULT IN LOSS OF DATA.**

 Once you begin to generate your Brief **you should not use your PC or laptop until the brief is completed.** Keyhouse calls on a number of programs during brief generation and trying to view/use another program will cause disruption to the brief.

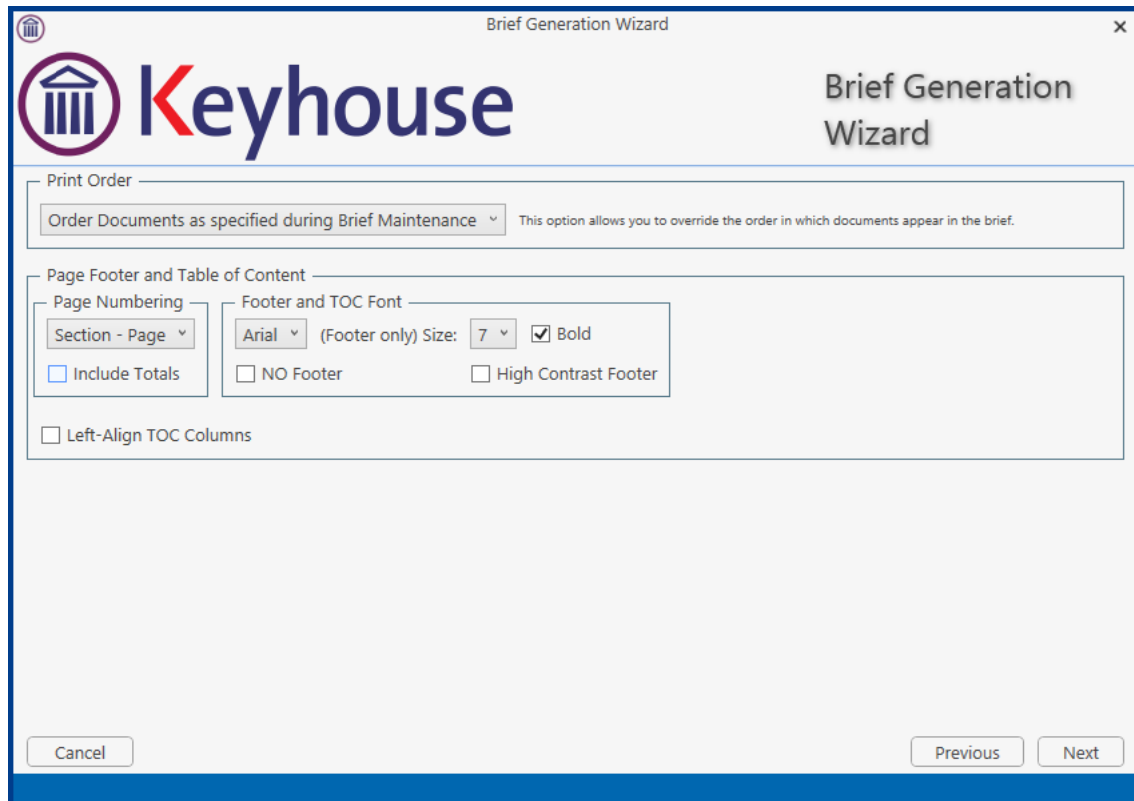

### How to (Re) Generate a Brief

1. Click **(Re)Generate** on the Home tab.
2. The Brief Generation Wizard will start.  
The system may select some documents for pre-processing and ask if you want to select others which have not automatically been selected. The automatically selected documents cannot be unselected, but you may tag others for pre-processing by checking the box beside each.
3. Click **Next**.
4. Select the **print quality** and **colour depth** required.

Check the box to use Outlook to convert MSG files.

5. Click Next. A screen will show the progress of the document pre-processing.
6. When pre-processing has been completed, you will have the opportunity to set the print order of the brief, the contents and position of the footer and the alignment of columns in the table of contents.

- The documents in each Section may be printed in ascending date order, in alphabetical order by filename or in the order in which they were added to the brief while it was being assembled or maintained.

- The options for page numbering in the footer are:
  - **Page**: Only the page number is shown;
  - **Section – Page**: The section number and the page number are shown;
  - **Section – Desc – Page**: The section number and description, and the page number are shown.

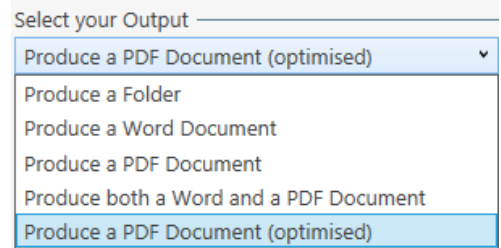

Check the Include Totals box to include totals (e.g. “Page 5 of 158”).

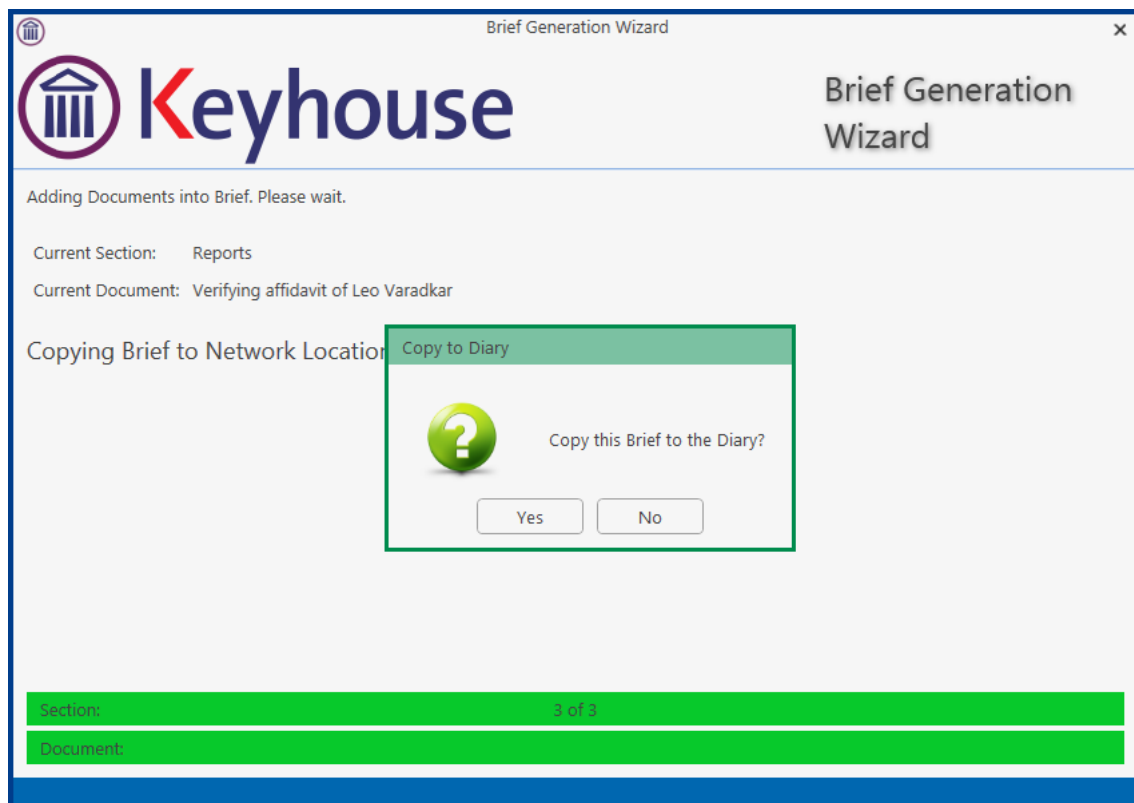

- You can set the footer font size and weight or provide that there should be no footer
  - A High Contrast Footer will place a white background behind the page number making it easier to see.
  - You may check the box to Left-Align the Table of Contents columns; if you leave the box unchecked, the page numbers will be right-aligned.
7. When you have selected the desired options for the print order of documents, the contents of the footer and the table of contents, click **Next**.

8. You will now choose the type of output. The options are a **Word** document, a **PDF**, or both. You may also choose to produce a folder of documents instead of a single document to facilitate the growing use of E-Court Documents.

When the Produce a Folder option is chosen, the folder will open automatically once the brief is generated.

9. Click Finish. The brief will now be generated. This may take some time to complete.
10. Once complete, you will be given the opportunity to add the brief to the case diary

11. Click Yes to save to case diary.

12. Set the Document Class and click Drop documents into Case

13. The Brief creates a completed action in the Case Diary.
