Searching using a Wildcard

A wildcard is useful when you are unsure of how exactly a word may have been entered. The % sign is used as a wildcard in Keyhouse systems and will match any number of characters. Note also the system will use the % for an apostrophe e.g. O’Connor will change to O%Connor.

1. **Input** the first part of the **client's address**, then a % then the remaining part in the search box, e.g. Ellis%Rathmines and press enter.
2. The system will return any client addresses beginning with **Ellis** ending with **Rathmines**. E.g. Ellis Park or Ellis Drive etc.

Manipulating the Search Screen

The new version of the Keyhouse Desktop has several user friendly options to allow you the user to alter the arrangement of your search screen. You can sort by column heading, filter or group and save for further use if required.

Chapter 4: The Case Diary

What is a Case Diary

The case diary is the electronic equivalent of the paper file of a case. It displays a case plan to help guide you through a case. A Case Plan is made up of a series of Tasks/Actions; these actions in turn are made up of documents which are processed when a task is taken. The Case Diary records completed tasks, generated tasks and outstanding tasks. It shows the date of the task, the person assigned to the task, i.e. the handler, and a description of the task. In addition, information on the client and matter details can also be viewed and amended from this screen.

See the following example of the case diary for Case BEC001/003. It is based on the Sale Workflow. It has a number of tasks in the case diary, several are complete tasks and the others are scheduled for a date in the future.

Standard View

The screenshot displays the 'Keyhouse Case Management' application window. The main area shows a 'Case Diary' for Case ABA001/0001, handled by David Abrahams. The diary is presented as a table with columns for Date, Time, Handler, Synopsis, and Action Co. The table lists various tasks, some with green checkmarks indicating completion and others with yellow exclamation marks indicating future or pending tasks. A 'Documents Generated' section at the bottom shows a document titled 'Letter to Client' dated 02 Nov 2015. On the right, a 'Preview Document' pane shows the content of the selected document, including the date '02 November 2015' and the client's address: 'David Abrahams, 123 Mayfair Street, Dublin 2'.

Chapter 11: Time Recording

Time Recording in the Case Diary

Time can be recorded in the case diary in two ways: automatically using a timer or manually using a time slip. Once time is recorded it is then posted to the Day Book and from there it is posted to the time ledger of the case. Recorded time can be used for billing, reporting and productivity tracking.

Here are the two tools available in the Case Diary for recording time.

The Brief Wizard

This tool automates the task of generating a brief to counsel, saving you time. It amalgamates all the required documentation in chronological order into relevant sections, complete with a cover page, table of contents and pagination.

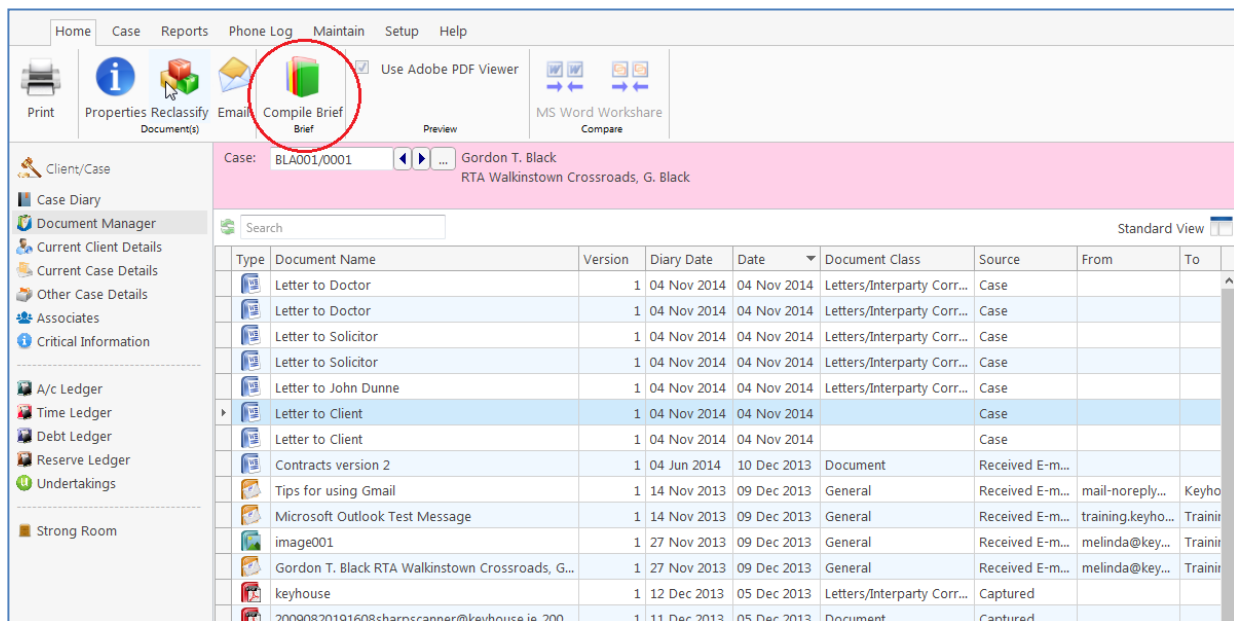

Important Steps for preparing your Brief

1. Review your documents in the **Document Manager** and ensure the necessary files are classified and the Document Date is correct as it will be in your brief.
2. If you cannot view or open a document from the Case Diary or Document Manager screen you will not be able to use this document in your brief.
3. Once you begin to generate your Brief you should not use your PC for any other purpose until the brief is completed. Several different programs will be used to generate the brief and running another program is likely to cause disruption to generation of the brief.
4. Please review the earlier part of this chapter (Document Manager, particularly p. 128 above) for details on how to rename and reclassify a document.

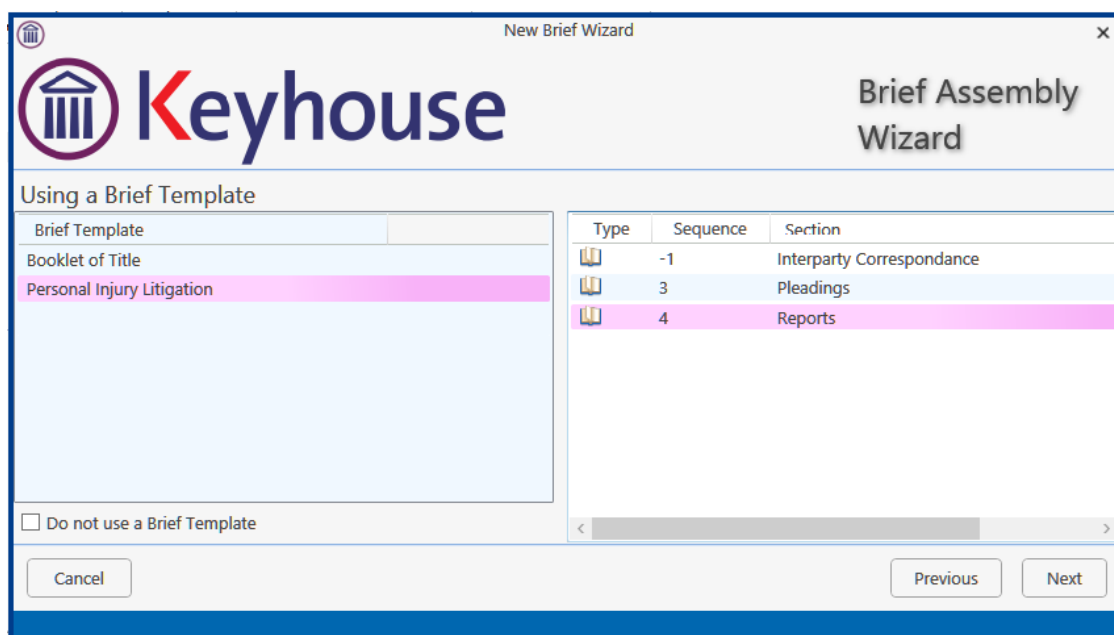

If you need assistance adding **Document Classes** please contact your Keyhouse administrator or casesupport@keyhouse.ie

- **Copy all documents into the brief and create sections as required:** Sections will be created for each Document Class which applies.

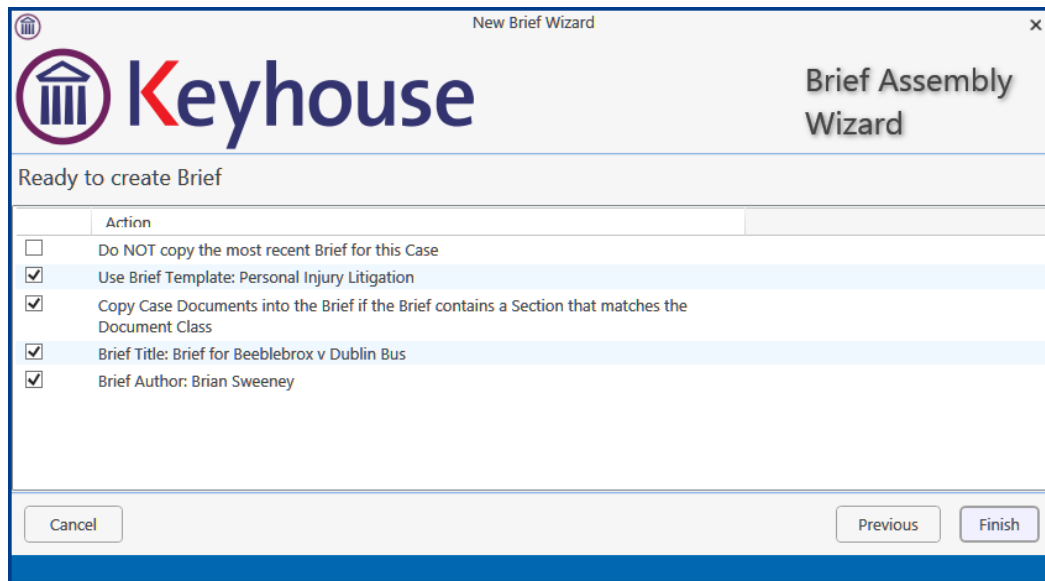

Tip: for further information on each option click the question mark icon beside it.

5. Click **Next** to continue to the **Brief Information** screen.

You may accept the default information or amend as required.

FAILURE TO DO THIS MAY RESULT IN LOSS OF DATA.

Once you begin to generate your Brief **you should not use your PC or laptop until the brief is completed**. Keyhouse calls on a number of programs during brief generation and trying to view/use another program will cause disruption to the brief.

- The footer offset is the minimum number of lines that must be maintained between the footer and the physical end of the page.
- The options for page numbering in the footer are:
 - **Page**: Only the page number is shown;
 - **Section – Page**: The section number and the page number are shown;
 - **Section – Desc – Page**: The section number and description, and the page number are shown.
 Check the box to include totals (e.g. “Page 5 of 158”).
